Go on a 60-year ride with Harley-Davidson's  
Sportster Things got a little weird in the  
American motorcycle industry after World War  
II. People hungered for new motorcycles,  
buying just about everything manufacturers  
could build. But on rare occasions a  
manufacturer produced a machine that nobody  
wanted. Such was the case with the Harley-  
Davidson Model K. The Model K had most of the  
features buyers wanted in a modern machine,  
like hand-operated clutches, foot-operated  
shifters, and cool-running aluminum heads,  
but it lacked perhaps the most important

technological upgrade: a modern overhead-valve valve-train design. The Model K retained the antiquated side-valve design because of arcane AMA racing rules written when Harley-Davidson and Indian competed head-to-head on American racetracks, but by 1952 Indian was on its last legs. This should have made the Model K a massive sales success. What nobody counted on was the British bike invasion. Thanks to their modern overhead-valve engines, the lightweight British bikes humiliated the side-valve Harleys on the track and on the street. Upgrades to the Model K didn't help; Harley finally relented and introduced a new overhead-valve middleweight for the 1957 model year. Dubbed the Sportster, it was everything the Model K was not. More importantly, it was faster than the British competition. Thus began the Sportster's sixty-year reign. Harley-Davidson Sportster: Sixty Years tells the complete Sportster story. Noted Sportster expert Allen Girdler covers all the bikes--the XLCH, Caf\_Racer, XR1000, XLX, 883, Iron, Forty-Eight, Seventy-Two, and Nightster--that have made the Sportster one of the most iconic motorcycles on earth.

Complete coverage for Pit Bikes with 4-stroke air-cooled horizontal (lay-down) engines, specifically the Lifan semi-automatic IP52FMH, and 4-speed Lifan IP52FMI, Lifan IP56FMJ (YX140), Zongshen IP60YMJ (ZS155):
