Accounting for Decision Making and Control provides students and managers with an understanding appreciation of the strengths and limitations of an organization's accounting system, thereby allowing them to be more intelligent users of these systems. The Ninth Edition demonstrates that managerial accounting is an integral part of the firm's organizational architecture, not just an isolated set of computational topics. Managers in all organizations, throughout their professional careers, interact with their accounting systems as it is both a source of information for decision making and part of the organization's control mechanisms.

'Financial Accounting for Decision Makers' presents the key concepts of accounting without going into too much unnecessary technical detail. The book is aimed as 'users' of accounting information, not 'preparers' of accounts.

Radical changes to public service delivery have swept across many regions of the world. Management accounting methods are vital to support operational and strategic decision making in public services internationally. This book provides a comprehensive and "leading-edge" guide to the topic. Written by an expert scholar with practical experience of public service delivery, the book takes account of key trends such as increased demand for public services, financial austerity, technological change and enhanced performance management. A globally relevant book, informed by cutting edge academic research and benefitting from integrated case studies, this is essential reading for both students and practitioners involved with the financial aspects of public services management.

Go beyond managerial accounting theory to the techniques used in management today. Managerial Accounting: Making Decisions and Motivating Performance enables managers and business owners to attain the core skills they need to become integral members of their company's decision-making teams. This new program from established authors Srikant M. Datar and Madhav Rajan emphasizes decision-making and the effects of decisions. While many texts teach the theories and frameworks of management education, Managerial Accounting goes further by covering the capabilities and techniques necessary for effective management practice, as well as fostering attitudes that typify integrity, honesty, and fairness. 0132816245 / 9780132816243 Managerial Accounting: Making Decisions and Motivating Performance Plus NEW MyAccountingLab with Pearson eText -- Access Card Package Package consists of: 0132829444 / 9780132829441 NEW MyAccountingLab with Pearson eText -- Access Card -- for Managerial Accounting: Making Decisions and Motivating Performance, 1/e 0137024878 / 9780137024872 Managerial Accounting: Making Decisions and Motivating Performance, 1/e

This text is an introductory course in management accounting for those seeking an understanding of basic principles and underlying concepts without detailed technical knowledge. It has a strong practical emphasis, with plenty of examples taken from the real world as well as numerical examples with step-by-step explanations.

The objective of this book is to make you a better manager by enabling you to understand and apply managerial accounting techniques effectively. The main topics are discussed in a logical order, often accompanied by an illustration of how each technique is applied. Answers to questions are given at the end of each chapter.
