The engine air filter in your 2007 Ford Focus cleans the air that enters your engine. You should change the filter on your Focus at least once a year or every 20,000 miles, whichever comes first. If you drive in dusty or sandy conditions, you should change your filter more frequently. A dirty air filter will cause your Focus to lose 1 - 3 mpg ...

Find the control panel in a Ford Focus by removing the trim panel surrounding the air controls. Listen for the blower motor to make sure that it is running, but not overly loud. Step into the car and play with the air controls on the dashboard to make sure the blower motor is making the appropriate increases and decreases in volume.

The average price of a Ford Focus is approximately £0. As a general rule, the value of a car will decrease the older it is. Therefore cars, classic cars aside, built nearer 2020 will be higher in price. The chart above shows you the current average price of a Ford Focus car against the year it was manufactured.
