Aircraft mechanic books, A&P training, study aides ...

Overall good study guide though, but need to know additional material to pass. Just took the Powerplant test 101 questions and only about 12 were not in the book. Many of the questions are reworded, so again you need to really know the material. However, I think you could pass if you just used this guide for this test.

The three test, (General, Airframe and Powerplant) are multiple-choice type. The minimum passing score is 70 percent on each of the 3 test. The General test contains 60 questions, and the Airframe and Aviation Powerplant tests contain 100 questions each. You are allowed 2 hours to complete each of the written test.

Passing FAA's Aircraft Mechanic Written Test

Typically tests for one certificate--airframe or power plant--takes about 8 hours. To apply to take the written test, you must present your proof of experience to an FAA inspector at the local FAA office. There are separate tests for airframe and power plant mechanic certificates, as well as a general test covering both.
