Dominick Dunbar 4/13/2020 Human Anatomy and Physiology 1 Research Paper Sleep is one of the most influential aspects of our life. Not only does it affect our physical being but it also affects how we feel and act everyday. When we have problems sleeping, we may experience issues staying awake during the day, such as being productive and keeping a clear head.

**Research Paper Anatomy** — **Dominick Dunbar Human Anatomy** —

Writing research papers mainly is centered on the structure (Anatomy) and functional descriptions of the various sections (Physiology). The standard paper structure, including introduction, methods, results, discussion, conclusions is not only enough to keep track, but even with those sections, there is still enough freedom to get stuck in writing cul-de-sacs ( McDonnell, 2017 ).
