FreeRange Human ~ Treating Epilepsy with Paleo

So I took some time out from that scene – to deepen my speaking/writing and more... and most recently have been writing the much-updated new edition of Be A Free Range Human (freshly released in 2019!). You can check it out here.

About Marianne - Free Range Humans

How to be a free-range human Marianne says being "free range" is more than a location, it's a lifestyle choice - something that suits you. But, it doesn't mean free money, it means matching your previous income in a way that gives you the flexibility and design that suits your personality and your needs.

How to become a 'Free Range Human' - 9Honey

A free-range human is someone who has created a work-life – be it a business, be it a portfolio career, be it life as an author – that fits number one who they actually are. So their personality, if they're more of an introvert, they don't have to pretend every day to go out and be an extrovert who loves networking, for example.

Trapped in a job or business that's "just not you"? Always dreaming of your next vacation or living for the weekend? Marianne Cantwell's straight-talking bestseller will help you break out of that career cage and Be A Free Range Human. It's about much more than just quitting your job and becoming your own boss. It's about life on your terms, working when, where and how you want - so you don't have to fit yourself into someone else's box to make a great income. This second edition won't just inspire you, it will give you unconventional and practical steps to: - Discover what you really want to do with your life (even if no answer has ever fully fit) - Get started in 90 days, with what you have - Create a free range career, tailor-made for you and the life you want (be it travelling the world or hanging out in your favourite café) - Stand out from the crowd and get paid well to be you Be A Free Range Human was one of the first and most popular guides to creating a custom career (without an office or a boss). Updated with new advice on how to make free range work for your personality (you don't need to be a constantly-networking extrovert. have an MBA, or get funding), this smart, energizing guide will help you cut through the noise, see your options in a new way, and get the freedom and fulfilment you crave.

Free Range is the new career change Trapped in a job that's 'just not you'? Always dreaming of your next vacation and counting down to the weekend? Imagine getting paid to do something that brings you alive, without ever having to walk into an office again. It's all possible with this smart guide that breaks you out of the career-cage and puts you in control of your life. Be a Free Range Human is a breezy, energizing and straight-talking guide to creating an amazing lifestyle and a great income, doing what you love (on your own terms). Packed with inspiring case studies from people who've done it, this book shares unconventional ideas and practical steps to:

- Discover what you really want to do with your life
- Create a 'free range' career tailor-made for your unique personality and interests
- Ditch the job and still make as much (or more) as you do now
- Get time and location freedom (make money travelling the world or hanging out in your favourite café)
- Get started in 90 days, for less than £100 (you don't need an MBA, funding or stuffy business plan to do it)
- Stand out from the crowd and do things your way!

For all of the millions of Americans who are out of work, soon to be out of work, or wishing to be freed from unrewarding work—here is the must-have book that will show you how you can make a living by working when, where, and how you want. Newly revised and updated, Barbara J. Winter's guide to successful self-employment is now more relevant than ever before. Drawing on the techniques and ideas of her popular seminars as well as her own thirty years of business expertise and that of other successful entrepreneurs, Winter offers the practical, proven way to launch your own profitable venture. Her indispensable advice ranges from why creativity is more important than capital to how to avoid the most common pitfalls of self-employment and how to develop multiple profit centers. And for this new edition, she has added timely advice on topics including:

- how to find opportunity in a chaotic economy
- why smart, small and spunky is the 21st Century business model
- using the Internet to open the door to fresh opportunities
- the best resources to help you create and grow a business that is uniquely your own
- how to leave Employee Thinking behind and build an Entrepreneur's Mindset
- and much more

Here are all of the tools you need for getting the most profit out of life both professionally and personally.

A great spiritual awakening, a New Age of consciousness, is occurring on Earth. Many are remembering who we truly are, after having been programmed since birth and imprisoned within the Matrix Control System. Humanity is beginning to realise that nothing on this planet is as it seems, and that we are being farmed for our life force energy by the elite rulers of Earth. They manipulate humanity into endless conflict and strive to rule us with the age-old game of divide and conquer, all as part of their ongoing agenda to enslave us within their technological prison known as the "New World Order". Free Range Humans takes the reader deep down the rabbit hole and will make sense of the intense and seemingly random chaos occurring on Earth right now. What is revealed in this book is shocking and is only for those sincerely seeking truth, spiritual growth, personal freedom, and metaphysical understanding. Join us as we work together to transcend the Matrix Control System and use the great challenges we face as catalysts for the evolution of human consciousness.

With more kids at home now . . . here is a book for parents, family members and friends who want to maximize this time for a deeper learning experience for their children and themselves. Free Range Learning will encourage and excite those who want their children to reap important benefits from this period of "sheltering in place," learning at home. This is a book for anyone simply wanting some fresh ideas at this time, or those who wonder if a commitment to ongoing homeschooling might actually result in longer term benefits! The material in this book is backed by scientific and educational studies, along with the testimonies of scores of parents and kids from around the world. The work here is applicable for young people from pre-school through high school. Studies indicate that adults who were homeschooled are:

- * More likely to vote, volunteer and be involved in their communities than graduates of conventional schools.
- * Read more books than average.
- * More likely to have taken college level courses than the population as a whole.
- * Tend to be independent and self-reliant.

Children are naturally "free range" learners. They build knowledge and skills naturally, within the full spectrum of their daily lives, while observing, exploring and pursuing their interests. This book guides any parent or educator in assisting that process.

Learn to raise independent, can-do kids with a new edition of the book that started a movement In the newly revised and expanded Second Edition of Free-Range Kids, New York columnist-turned-movement leader Lenore Skenazy delivers a compelling and entertaining look at how we got so worried about everything our kids do, see, eat, read, wear, watch and lick -- and how to bid a whole lot of that anxiety goodbye. With real-world examples, advice, and a gimlet-eyed look at the way our culture forces fear down our throats, Skenazy describes how parents and educators can step back so kids step up. Positive change is faster, easier and a lot more fun than you'd believe. This is the book that has helped millions of American parents feel brave and optimistic again -- and the same goes for their kids. Using research, humor, and feisty common sense, the book shows: How parents can reject the media message, "Your child is in horrible danger!" How schools can give students more independence -- and what happens when they do. (Hint: Teachers love it.) How everyone can relax and successfully navigate a judge-y world filled with way too many warnings, scolds and brand new fears Perfect for parents and guardians of children of all ages, Free-Range Kids will also earn a place in the libraries of K-12 educators who want their students to blossom with newfound confidence and cheer.

In his riotous debut collection, *Ant Farm*, Simon Rich found humor in some of life's most desperate situations. Now this former editor of *The Harvard Lampoon* and current writer for *Saturday Night Live* has returned to mine more comedy from our hopelessly terrifying world. In the nostalgic opening chapter, Rich recalls his fear of the Tooth Fairy ("Is there a face fairy?") and his initial reaction to the "Got-your-nose" game ("Please just kill me. Better to die than to live the rest of my life as a monster"). He goes on to present Count Dracula's desperate Match.com profile ("I am normal human looking for human woman to come to castle. I am normal, regular human"). Later, he gets inside the heads of two firehouse Dalmatians who can't understand their masters' compulsion to drive off to horrible fires every day. And in the final chapter, he tackles some of life's biggest questions: Does God really have a plan for us? Yes, it turns out. Now if only He could remember what it was. . . . Praise for Simon Rich's *Ant Farm* "Ant Farm has an imaginative power that can trigger snort-fests. . . . Ferociously creative, this book is for readers craving both smart humor and belly laughs." —People (four stars) "Savagely funny." —The New York Times "Hilarious. Open this book anywhere, begin reading, and you will laugh." —Jon Stewart "Ant Farm is what all humor books should be: full of brief, high-concept musings that you wish you'd thought of yourself." —Time Out New York "A satirical salmagundi that bites back . . . Imaginative premises abound. . . . As unpredictable as YouTube, as in your face as MySpace." —Publishers Weekly

"If your garden fantasies involve chickens, Jessi Bloom is here to make those dreams come true." —The New York Times Many gardeners fear chickens will peck away at their landscape. But you can keep chickens and have a beautiful garden, too! In this essential handbook, award-winning garden designer Jessi Bloom offers step-by-step instructions for creating a beautiful and functional space while maintaining a happy, healthy flock. *Free-Range Chicken Gardens* covers everything a gardener needs to know, from the basics of chicken keeping and creating the perfect chicken-friendly garden design to

building innovative coops.

INFOSTRUCTURE presents the vision of interactive and responsive urban public transport environments where new forms of communication and information access are enabled through an overlay of urban digital media technologies. Featuring research and projects undertaken by master students in architecture at the University of Technology, Sydney and Bachelor students in design computing at the University of Sydney, the book explores the augmentation of existing public transport environments with urban digital media technologies, to set in motion a transformation from infrastructure to 'infostructure(s).' Precedent based research and technology investigations underpin the twenty featured student projects, that address a nexus of space, urban media, sensor, and mobile phone technology. The research presented in this book is a foundation for a series of future infostructure projects.

This paperback edition of Stephanie Pearl-McPhee's popular Free-Range Knitter: The Yarn Harlot Writes Again reminds us of the joy we felt upon first encountering her hilarious and poignant collection of essays surrounding her favorite topics: knitting, knitters, and what happens when you get those two things anywhere near ordinary people. For the 60 million knitters in America, Stephanie Pearl-McPhee (a.k.a. the Yarn Harlot) shares stories of knitting horrors and triumphs, knitting successes and defeats, but, mostly, stories about the human condition that ring true for everyone--especially if you happen to have a rather large amount of yarn in your house. Funny, unique, and gleeful in her obsession, Pearl-McPhee speaks to knitters of all skill levels in this delightful celebration of craft and creativity.
