A "fakebook" is a collection of melodies with the chord changes that allows jazz musicians to read the tunes instead of playing solely by ear and memory. It is, then, a place to start, a structure upon which jazz improvisation, "faking," builds. As a young man, the author, a jazz saxophone player, tried to make a living at what he loved most. He failed, gave up jazz and became a college English professor. Today he

is playing his saxophone again, at weekend gigs, rediscovering the unending challenge and the fulfillment that jazz brings him. This journey of self-discovery demonstrates the power of both jazz and superbly crafted writing.

(Piano Instruction). From Duke Ellington, to Chick Corea, Bill Evans, Oscar Peterson and many others, take a look at the genesis of jazz piano. This book with audio provides solo transcriptions in standard notation, lessons on how to play them, biographies, instrument information, photos, history, and more.

The accompanying audio contains full-band demo tracks and accompaniment-only tracks for every piano solo in the book. Songs include: All of You * Caravan * Freddie Freeloader * Have You Met Miss Jones? * I Fall in Love Too Easily * If I Were a Bell * In Walked Bud * Night and Day * Slings & Arrows * West Coast Blues * and more.

This book is the 2nd volume in a series designed to help the student of jazz piano learn and apply jazz scales by mastering each scale and its uses in improvisation. Each book focuses on a different scale,

illustrating the scale in all twelve keys with complete fingerings. Also provided are chords and left hand voicings to match, exercises and etudes to help apply the material to improvising, ideas for further study and listening, and detailed instructions and suggestions on how to practice the material.
