A Revolution in Painting The mysterious genius who transformed European art Caravaggio, or more accurately Michelangelo Merisi da Caravaggio (1571-1610), was always a name to be reckoned with. Notorious bad boy of Italian painting, the artist was at once celebrated and controversial: violent in temper, precise in technique, a creative master, and a man on the run. Today, he is considered one of the greatest influences in all art history. This Bibliotheca Universalis edition offers a neat yet comprehensive Caravaggio catalogue raisonné. Each of his paintings is reproduced from recent top-quality photography, allowing for a vivid encounter with the artist's ingenious repertoire of looks and gestures, as well as numerous detail shots of his boundary-breaking naturalism, whether a grubby foot or the soft folds of a sagging stomach. Five accompanying chapters trace the complete arc of Caravaggio's career from his first public commissions in Rome through to his growing celebrity status, while the book's detailed chronology traces his tempestuous personal life, in which drama loomed as prominently as in his chiaroscuro canvases. "This title offers a comprehensive examination of the whole of Caravaggio's oeuvre with a catalogue raisonnée of his works. Five introductory chapters analyse his artistic career from his training in Lombard Milan and his triumphal rise in papal Rome up to his dramatic final years in Naples, Malta and Sicily"--Front jacket flap.

The painting of Michelangelo Merisi called Caravaggio (1571-1610) had such a vast influence that, according to modern scholars, it constituted an "epochal turning point" not only in Italian but also European art. This volume recounts the master's life through lights and shadows, masterpieces and scandals, presenting the paintings that scholars have unanimously acknowledged to be autograph works on the basis of documentary evidence that has emerged in recent years. It analyzes his revolutionary painting skills at a technical and creative level, and depicts a remarkably alive and realistic picture of Caravaggio the "man" and his journey: the move from Lombardy to Rome, followed by his dramatic flight to Naples, Malta, Sicily, and back to Naples again, ending with his tragic death. -- From publisher's description.

For so many champions of art history, the ultimate sounding board was--and remains--Diego Rodríguez de Silva y Velázquez. First available as an XXL volume, this accessible edition presents his complete works in beautiful reproductions, including enlarged details and photography of recently restored paintings.

“This book reexamines its subject with rare clarity and power as a painter for the 21st century.” Hilary Spurling, New York Times Book Review In a bravura performance, Andrew Graham-Dixon explores Caravaggio’s staggering artistic achievements, delving into the original Italian sources to create a masterful profile of the mercurial painter. This New York Times and Washington Post Notable Book of the Year features more than eighty full-color reproductions of the artist’s best paintings.

A painter ahead of his time: Rebellious art from the Baroque age Notorious bad boy of Italian Baroque painting, Caravaggio (1571-1610) is finally getting the recognition he deserves. Though his name may be familiar to all of us, his work had been habitually detested and forced into obscurity. Not only was his theatrical realism unfashionable in his time, but his sacrilegious subject matter and use of lower-class models were violently scorned. Caravaggio's great work had the misfortune of enduring centuries of disrepute. It wasn't until the end of the 19th century that he was rediscovered and, quite posthumously, deemed a great master. He is now considered the most important painter of the early Baroque period; without him there would have been no Ribera, Zurbarán, Velázquez, Vermeer or Georges de La Tour. Frans Hals, Rembrandt, Delacroix, and Manet would have been different. In this anniversary edition you'll find over 50 of Caravaggio's best paintings; we think you'll agree that he was a genius beyond his time. About the Series: Each book in TASCHEN's Basic Art Series features: a detailed chronological summary of the life and oeuvre of the artist, covering his or her cultural and historical importance a concise biography approximately 100 colour illustrations with explanatory captions

Recounts the search for a long-lost masterpiece by Italian Baroque master Michelangelo Caravaggio, following a young graduate student across hundreds of years and four countries to uncover the mystery of "The Taking of Christ."

Some artists feel a strong compulsion to depict what is coarse and ugly, yet develop out of these elements both passion and power - even a kind of peculiar magnificence, which has grown out of a particular feeling or disposition. Accordingly, whilst the resulting picture may not strike a viewer as edifying, it frequently creates a very powerful and moving impression.

Celebrated by some for his naturalism and his revolutionary pictorial inventions, Caravaggio (1571-1610) was considered by others to have destroyed painting. This work offers a comprehensive examination of the whole of the artist's oeuvre.

Reproductions of the Dutch realist's paintings are accompanied by biocritical introductions and commentaries
