written for anyone endeavoring to start and operate a nursery for native and traditional plants in the tropics. Because the tropics cover a vast area of the world, however, the scope of the handbook is geared toward readers in the U.S. affiliated tropics. Specifically, the U.S. affiliated tropics are a diverse area spanning two

tobacco farming at the very moment a way of life stands poised for dramatic change. In addition to growing practices, the authors found other common threads linking growers and tobacco producing regions. Where tobacco is grown, it often becomes the major cash crop and carries the health of the economy. Farmer Oscar

United States had to engage in the fighting, especially after the Japanese attack on Pearl Harbor on December 7, 1941. The conflict was, in the words of historians Allan Millett and Williamson Murray, "a war to be won." As the world's largest industrial power, the United States put forth a supreme effort to produce the

weapons, munitions, and military formations essential to achieving victory. When the war finally ended, the finale signaled by atomic mushroom clouds over Hiroshima and Nagasaki, upwards of 60 million people had perished in the inferno. Of course, the human toll represented only part of the devastation; global

Society as one of the 75 greatest books ever written about gardening After Michael Pollan bought an old Connecticut dairy farm, he planted a garden and attempted to follow Thoreau's example: do not impose your will upon the wilderness, the woodchucks, or the weeds. That ethic did not, of course, work. But

neither did pesticides or firebombing the woodchuck burrow. So Michael Pollan began to think about the troubled borders between nature and contemporary life. The result is a funny, profound, and beautifully written book in the finest tradition of American nature writing. It inspires thoughts on the war of the roses; sex and
