The autobiography of Britain's first black football superstar Cyrilie Regis' story is a compelling one on many levels, including his migration from the French Caribbean to a racially divided West London in the 1960s; his development as a semi-professional footballer; his subsequent move to a top-flight Football League club which brought national recognition and glory, yet found him still facing racial hatred; and his eventually receiving an MBE, recognition for his services to football and the community. This fascinating autobiography describes the battles Cyrilie faced as a child and teenager before he turned professional and achieved great things as a footballer. As well as detailing the glorious moments in his career, it studies the impact that he and his black teammates had on the sociological outlook of football fans. It concludes with a review of Cyrilie Regis' life after he retired as a footballer, and his work in the community.

Cyrille Regis's story is a compelling one on so many levels. The story of his migration from the French Caribbean to a racially divided West London in the 1960s, his development as a semi-professional footballer and his subsequent move to a top-flight football league club.

Cyrille Regis, MBE, enjoyed a long career in football. During his playing years, he made well over 750 club and international appearances, scoring more than 200 goals, including 159 in 614 League appearances. Cyrilie won the FA Cup with Coventry in 1987 and represented England five times at senior international level. In this fascinating new book, author Tony Matthews tells the story of Cyrille's long and successful career through 50 important games - although he admits that he could easily have chosen 100! This book covers Cyrille's life in full, from his early days in the Caribbean, through his school years, playing at non-League level before entering the world of professional football and gaining England recognition. It also tells how Cyrilie came close to an early death in a car crash in Spain and how he went on to become a soccer coach and a players' agent, receiving an MBE in 2008. With forewords by Cyrille's former manager, Ron Atkinson, and professional footballers, Darren Moore and Derek Statham, as well as a host of other tributes, this is a book no football fan will want to miss.

All Crazier Now is the story of English football and its footballers in the 1970s, a decade that saw the start of the move from the 'old-fashioned' game towards the modern Premier League era; a transition that accelerated throughout the decade. Much of what we recognise in today's game is rooted in the seventies - including diverse ethnicity and multi-nationalism in club teams; the rise of commercialism; the cult of the manager; the end of the player-next-door; and the demand for victory ahead of individualism. The beginning of the decade remains the period in English football that supporters felt more connected than anytime previous or since. By the time the Thatcherite 1980s were dawning, the way had been paved for a rapid evolution towards 21st-century football. More than just a chronicle of trophy winners, star players and personalities, it offers a study of the tactical, philosophical, social, cultural, economic and political landscape that shaped football throughout a turbulent period for a nation and its favourite sport.

'It's not banter. It's racist.' 'Is football enough to give racism the boot? The global Black Lives Matter campaign has given greater exposure to the extent of the structural and systemic racism that exists in all strata of our society. It has provided renewed impetus to the urgent need to challenge and eradicate racism in all its forms and wherever it is found. Sadly, sport has not been immune from this, especially so in the case of football. For too long, there were attempts to hide and mitigate racist attitudes and actions within the game, but thanks to the growing profile and visibility of black and minority ethnic (BAME) players both past and present - Viv Anderson, Cyrilie Regis, Jimmy Carter, Les Ferdinand, Pat Nevin and Ruud Gullit - to name just a few and almost three decades of education and campaigning led by Kick It Out, attitudes have changed. However, there's still a great deal left to do. Throughout his entire journalistic career, leading sportswriter Harry Harris has championed the fight against racism in football. Now, within these pages, he shines a timely spotlight on the Beautiful Game, revealing the forces within football that have both helped expose and challenge racism - and, at times, sadly, hinder more rapid positive change. Includes exclusive commentary from Greg Dyke, Glenn Hoddle, Ivor Baddiel, Mek Stein, and Jermain Defoe. 'Highly commendable and will keep the debate raging!' John Barnes

Second Yellow: More Adventures of our Footballing Heroes brings you more funny, fascinating and downright baffling tales gleaned by authors John Smith and Dan Treffer from their unflagging research of over 240 footballer autobiographies. Together, they have pored through the works of genuine legends, cult heroes and players they can only dimly recall from their 1983 Panini sticker albums to find stories and facts that will delight, shock and confuse - sometimes all at once. There's the chairman who owned a ventriloquist's dummy called Algernon. There's the Liverpool legend who set a team-mate's wife's hair on fire. There's the Arsenal star who confronted some innocent fans with a samurai sword. And there's the Ipswich hero who took on Sylvester Stallone in an arm-wrestling contest - possibly inspiring Stallone's half-forgotten epic Over The Top. This book covers all the bases of the typical footballer's life: love, violence, gambling, horrific injury, banter (it's mostly banter) and, apparently, pigeons.

How was American culture disseminated into Britain? Why did many British citizens embrace American customs? And what picture did they form of American society and politics? This engaging and wide-ranging history explores these and other questions about the U.S.'s cultural and political influence on British society in the post-World War II period.

When Cyrilie Regis became one of the first black players to be selected for the full England team, he was sent a package in the mail. Inside it was a silver bullet and a note that read: 'You'll get one of these through your knees if you step on our Wembley turf.' In the 1978/79 football season Regis' club West Bromwich Albion, an unglamorous and little publicised club from the West Midlands, became the first British football team to field three black players: Cyrilie Regis, Laurie Cunningham and Brendon Batson. They did so against the backdrop of the most divisive and poisonous racial tension in the UK's history - a time when the National Front movement was at its most virulent. This book will tell the story of a defining and groundbreaking chapter in the history of British football and the country as a whole. The story is one about sport but also as much one about social change.

Shortlisted for Biography of the Year at the British Sports Book Awards When Laurie Cunningham played for England in an under-21s match against Scotland in 1977, he became the first black footballer to represent England professionally. Two years later, he would become the first Englishman to play for Real Madrid. In a time when racist chants flew from the stands, Cunningham's success challenged how black players were perceived, paving the way for future generations. But Cunningham was more than an exceptional footballer who could play like a dream. He was a dandy with a love of funk music and bespoke suits, as easily graceful on the dance floor as he was on the pitch. Different Class is a portrait of an important but unsung figure who brought glamour to the game at a particularly dark point in its history. Many know Laurie Cunningham's name but not his story; now they will know both.

On 1 April 1972 West Ham United made sporting history by becoming the first club from the highest echelon of English football to field three black players in League competition. What seems commonplace now was unheard of at the time. Their manager, Ron Greenwood, picked: Clive Charles (born in Canning Town, just a few miles from the Hammers' Upton Park home); Ade Coker (from Nigeria); and Clyde Best, who had made his way to London's Docklands from Bermuda. Together, these three players smashed a social barrier playing for this most romantic and enigmatic of clubs. East End Heroes, Stateside Kings tells of the origins of these players, that fateful day in '72 and their lives over the following 30 years as they became pioneering figures in the success of the North American Soccer League. After being named by Pele in the all-time greatest NASL team, Charles managed the leading College side Portland Timbers, guided the American Women to World Cup glory and achieved historic results in Olympic competition with the US Under-23s. Coker was another leading light in the modern American game and represented the USA at international level, overcoming devastating injury problems. Best grew to be a legend in the NASL and, along with Charles, was one of only four former West Ham players to manage at international level when he took over the Bermudian national side. He has recently been awarded an MBE. Painstakingly researched and including a foreword and interview with Kenny Lynch, one of Britain's best-loved entertainers and lifelong West Ham fan, this book tells the story of three young black men who genuinely broke the mould.
