German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

The Coptic Christians of Egypt have traditionally been portrayed as a 'beleaguered minority', persecuted in a Muslim majority state and by the threat of political Islam. Vivian Ibrahim offers a vivid portrayal of the community and an alternative interpretation of Coptic agency in the twentieth century, through newly discovered sources. Dismissing the monolithic portrayal of this community, she analyses how

Copts negotiated a role for themselves during the colonial and Nasserist periods, and their multifaceted response to the emergence of the Muslim Brotherhood. She examines reform within the Church itself, and how it led to power struggles that redefined the role of the Pope and Church in Nasser's Egypt. The findings of this book hold great relevance for understanding identity politics and the place of the Coptic community in the fast-changing political landscape of today's Egypt.
