Haww h has been compared to the Hurrian goddess Kheba, who was shown in the Amarna letters to be worshipped in Jerusalem during the Late Bronze Age. It has been suggested that the name Kheba may derive from ...

Eviona, Dyre, and Zefforah are individuals who have never all been in the same place at the same time, but they share a mystical connection allowing each to see, hear, feel, smell and taste what the others experience. Though they have the ability to make separate choices, the consequences are felt by all. Follow Eviona's story as she conquers her personal demons, fights for her individuality, and finds where she belongs emotionally, physically, and spiritually.

This is the first book-length attempt to focus on female biblical figures in the ancient rabbinic writings of midrash and Talmud. Primary rabbinic sources employed by the author bring new life and insight into the stories of Eve, Deborah, Hannah, Serah bat Asher, and others. As women and men today attempt to reevaluate past historical models, it serves us well to understand the values and inner workings of rabbinic thinking. The examination of what the sources actually say, and not what others would like them to have said, enable reinterpretation of women's role to proceed on an honest and authentic basis. Biblical women, reclaimed with contemporary midrash, can become paradigms for our modern lives.

Describes how a scientist linked the DNA found in a five-thousand-year-old man to modern-day relatives and explains how all modern individuals can trace their genetic makeup back to prehistoric times to seven primeval women.

To answer the question, "Can I believe the Bible and still believe women and men are equal?" the book conveys the author's journey from a limiting belief in traditional roles for men and women to the liberating belief in God-ordained equality. Besides making the issue of biblical equality easier to understand, it provides a helpful overview of current scholarship and writings on gender equality.

Eve's Apple is the story of how one lady, Eve, contracted and spread the most fatal disease ever known to mankind as an act of her mind and will. The name of this disease is sin. This disease of sin is the root cause of all war, murder, stealing, lies, and every other known form of evil in the world. The result has been the death of every generation of mankind who has ever lived. "But wait a minute," you say. "I believe death is caused by old age or cancer, a heart attack, or some other physical problem or disease and not by some religious belief called sin." This is partly true. But what is the root cause of all known diseases? And if all known diseases result in death, isn't this just another way sin manifests itself? In addition to all these facts, I believe the story of Eve's apple defines the history of the human race. Ralph Waldo Emerson once wrote, "There is no such thing as history, only biography." Well, if history is a collection of biographies, or stories, then this story of Eve's apple ranks among the most important of all. The story of Eve's apple began mankind's conflict with a good and evil in our world. This struggle by you and me and the rest of the human race has affected our world and history more than any other challenge in life. How mankind has chosen to struggle with this conflict has shaped the history of our world. If the above reasons for Eve's importance to history and your life are not enough, may I suggest one more: contained in this story of Eve is the prophecy of God's answer to Eve's sin, which contains faith, hope, and love.
