Crossroads

In the style of a documentary, Families at the crossroads relates what happens when the closest, most important and most emotional bonds in our lives are suddenly torn apart - the family bond. Threatened by abuse, betrayal, secrets, illness - all topics viewers can relate to. These stories are taken from true everyday events - such as those found in the news and are recreated in a dramatized form.

into the pre-slavery development of the Black middle class, internal processes that affect all class strata among Black American families, the impact of race on modern Black immigrant families, the interaction of external forces and internal norms at each stage of the Black family life cycle, and public policies that provide challenges and promising prospects for the continuing resilience of the Black family as an American institution. This thoroughly revised edition features new research, including empirical studies and theoretical applications, and a review of significant social policies and economic changes in the past decade and their impact on Black families.

Assesses the state of the family in postmodern Western society and challenges the evangelical defense of the traditional family that exemplifies the biblical model. Argues that the "traditional" family reflects the nineteenth-century middle-class family more than those found in Scripture.

This collection of essays covers most of the important topics in the field of family history, assesses the state of the art, and stresses the themes that will continue to generate interest in the future. The institution of marriage is at a crossroads. Across most of the industrialized world, unmarried cohabitation and nonmarital births have skyrocketed while marriage rates are at record lows.

Download Free Families At The Crossroads

These trends mask a new, idealized vision of marriage as a marker of success as well as a growing class divide in childbearing behavior: the children of better educated, wealthier individuals continue to be born into relatively stable marital unions while the children of less educated, poorer individuals are increasingly born and raised in more fragile, nonmarital households. The interdisciplinary approach offered by this edited volume provides tools to inform the debate and to assist policy makers in resolving questions about marriage at a critical juncture. Drawing on the expertise of social scientists and legal scholars, the book will be a key text for anyone who seeks to

understand marriage as a social institution and to evaluate proposals for marriage reform.

When eleven-year-old Zack Jennings moves to Connecticut with his father and new stepmother, they must deal with the ghosts left behind by a terrible accident, as well as another kind of ghost from Zack's past.

An inspiring story of hope and resiliency On April 6, 2018, sixteen people died and thirteen others were injured after a bus taking the Humboldt Broncos junior hockey team to a playoff game collided with a transport

truck in a rural intersection. The tragedy moved millions of people to leave hockey sticks by their front door to show sympathy and support for the Broncos. People from more than eighty countries pledged millions of dollars to families whose relatives had been directly involved in the accident. Crossroads is the story of Kaleb Dahlgren, a young man who survived the bus crash and faced life after the tragedy with resiliency and positivity. In this chronicle of his time with the Broncos and the loving community of Humboldt, Saskatchewan, Dahlgren takes a hard look at his experience of unprecedented loss, but also revels in the overwhelming response and outpouring of love

from across Canada and around the world. But this book also goes much deeper, revealing the adversity Dahlgren faced long before his time in Humboldt and his inspiring journey since the accident. From a childhood spent learning to live with type 1 diabetes to his remarkable recovery from severe brain trauma that astounded medical professionals, Dahlgren documents a life of perseverance, gratitude and hope in the wake of enormous obstacles and life-altering tragedy. The author will donate a portion of his proceeds from this book to STARS (Shock Trauma Air Rescue Service).

Every society throughout history has defined what counts as work

and what doesn't. And more often than not, those lines of demarcation are inextricable from considerations of gender. *What Is Work?* offers a multi-disciplinary approach to understanding labor within the highly gendered realm of household economies. Drawing from scholarship on gender history, economic sociology, family history, civil law, and feminist economics, these essays explore the changing and often contested boundaries between what was and is considered work in different Euro-American contexts over several centuries, with an eye to the ambiguities and biases that have shaped mainstream conceptions of work across all social sectors.

Today's Indian families are indeed at a crossroads. On the one hand, many families have found a way to stay close and resilient during these times of rapid social-economic and political change. On the other hand, Indian families are encountering new and disturbing problems that are putting them at risk for a host of bio-psychosocial problems. This book examines both sides of the crossroads as it addresses many of the pressing and controversial issues in contemporary Indian society and its place in the modern world, as well as factors that threaten the structure and well-being of the Indian family system. However, unlike other books, which primarily emphasized social ills and the

negative aspects of family life, this book presents a balanced view of Indian cultural and family strengths and vulnerabilities. The editors discuss potential solutions to complex problems of both local/community and national levels. Readers will be left with a greater understanding of the richness and diversity of the Indian family as it remains the backbone of the world's largest democracy. It is the editors' hope that each chapter will shed new light on how working professionals and concerned citizens can better prepare families for the unparalleled challenges of today and tomorrow as well as assist families (rural and urban) which are already in the quagmire.
