role: • Nitrogen (N) is needed for healthy leaf growth. • Phosphorus (P) is needed for healthy root and shoot growth.

How to use fertilisers

Whenever possible fertiliser should be stored inside a secure building made

Bookmark File PDF

Fertiliser Directory

from non-combustible materials. The building should be dry, well ventilated and with a floor free of sharp objects. When storing fertiliser inside a building: Stack to a maximum of 3 bags high. Interlock bags in a stack for stability; Keep each stack to a maximum of 300 tonnes.
