Flaming Iguanas by Erica Lopez | Waterstones

Flaming Iguanas is not a classic coming-of-age-on-the-road story. It ' s not a tale of personal transformation through the grand experience of travel. It ' s not a life-lessons-dispensing parable. If anything, it ' s a punk manifesto. Which makes Erika Lopez exactly the kind of witty, road-conquering, tough-as-nails female travel writer role model that I was looking for. Now before I let you ...

Follows the wild path of Tomato Rodriguez as she makes her way across the country via motorcycle in an effort to visit as many post offices as possible

Women experience and portray travel differently: Gender matters - irreducibly and complexly. Building on recent scholarship in women's travel writing, these provocative essays not only affirm the impact of gender, but also cast women's journeys against coordinates such as race, class, culture, religion, economics, politics, and history. The book's scope is unique: Women travelers extend in time from Victorian memsahibs to contemporary «road girls», and topics range from Anna Leonowens's slanted portrayal of Siam - later popularized in the movie, *The King and I*, to current feminist «describing» of the male-road-buddy genre. The extensive array of writers examined includes Nancy Prince, Frances Trollope, Cameron Tuttle, Lady Mary Montagu, Catherine Oddie, Kate Karko, Frances

Calderón de la Barca, Rosamond Lawrence, Zilpha Elaw, Alexandra David-Néel, Amelia Edwards, Erica Lopez, Paule Marshall, Bharati Mukherjee, and Marilynne Robinson.

Reading Jack Kerouac's classic *On the Road* through Virginia Woolf's canonical *A Room of One's Own*, the author of this book examines a genre in North American literature which, despite its popularity, has received little attention in literary and cultural criticism: women's road narratives. The study shows how women's literature has inscribed itself into the American discourse of the Whitmanesque "open road", or, more generally, the "freedom of the road". Women writers have participated in this powerful American myth, yet at the same time also have rejected that myth as fundamentally based on gendered and racial/ethnic hierarchies and power structures, and modified it in the process of writing back to it. The book analyzes stories about female runaways, outlaws, questers, adventurers, kidnappees, biker chicks, travelling saleswomen, and picaras and makes theoretical observations on the debates regarding discourses of spatiality and mobility—debates which have defined the so-called spatial turn in the humanities. The analytical concept of transdifference is introduced to theorize the dissonant plurality of social and cultural affiliations as well as the narrative tensions produced by such pluralities in order to better understand the textual worlds of women's multiple belongings as they are present in these writings. *Roads of Her Own* is thus not only situated in the broader context of a constructivist cultural studies, but also, by discussing narrative mobility under the sign of gender, combines insights from social theory and philosophy, feminist cultural geography, and literary studies. Key names and concepts: Doreen Massey – Rosi Braidotti – Literary Studies

Charts the ways that woman artists have represented themselves and their life stories

When Tomato Rodriguez's main squeeze, Hooter Mujer, swagers off the fidelity wagon, Tomato eschews passive new age sentiment and instead plots an operatic revenge. Her cunning plan, involving whipped cream, a Bic pen, and some four-by-two goes awry, surprisingly enough, and Tomato finds herself facing a murder rap. Traumatized by tough B movie one liners and tedious lesbian orgies, Tomato transforms herself into Mad Dog, a bitch to be watched. Illustrated! 'A side-splitting romp through queer and pop culture' - Lambda Book Report

Publisher description

global icon of untamed freedom, symbolizing a daring and reckless lifestyle of adventure. Yet there are few books that chronicle how and when this legendary vehicle roared down the open road. *Motorcycle* explores the roots of the rebel 's ultimate ride. After early incarnations as a nineteenth-century steam-powered bicycle and multi-wheeled vehicles, the modern motorcycle came into its own as a cheap, mobile military asset during World War I. From there, it rapidly spread through modern culture as a symbol of rebellion and subversive power, and *Motorcycle* tracks the symbolic role that the bike has played in literature, art, and film. The authors also investigate the international subcultures that revolve around the motorcycle and scooter. They chart the emergence of American biker culture in the 1950s, when decommissioned fighter pilots sought new ways to satiate their desire for thrill and danger, and explore how the motorcycle came to represent the untamed nonconformity of the American West. In contrast, smaller scooters such as the Vespa and moped became the utilitarian vehicle of choice in space-starved metropolises across Europe and Asia. Ultimately, the authors argue, the motorbike is the exemplary Modernist object, dependent on the perfect balance of man and machine. An unprecedented and wholly engrossing account, *Motorcycle* is an essential reading for the Harley-Davidson roadhog, bike collector, or anyone who 's felt the power of the unmistakable king of the road.

This book explores New Area Studies in the twenty-first century. It addresses a blurring of genres between the social sciences and the humanities; expanding methodological innovation, reflective practice and co-production of knowledge with local people. It marks the significance of the local to the global in an increasingly complex world.
