Goddess Scorned is the action-packed sequel to Forgotten Gods. It follows the adventures of Vic Stratton and her allies as they seek to defend the world from the evil trying to devour it. Unfortunately, sometimes evil wears a pretty face.

Hell hath no fury, like a goddess scorned... OK, so I accepted Kronin's call to defeat the Forgotten Gods and save the earth. But don't thank me yet. Just because I'm on the job doesn't mean it will be easy-even with the Gladius Solis at my side and the power of Carcerum coursing through my veins. The problem is that the Forgotten aren't your run of the mill villains. They're, well...gods. Which means they're violent, powerful, and crafty as hell. And all manner of human scum is flocking to their side. Along with my vampire problems, strange beauties have started appearing throughout the country, seducing men and women of great power. But I've got a hunch that there's more to these ladies than an alluring smile. I'm just not sure I want to find out what it is. Goddess Scorned is the action-packed sequel to Forgotten Gods. It follows the adventures of Vic Stratton and her allies as they seek to defend the world from the evil trying to devour it. Unfortunately, sometimes evil wears a pretty face.

Nine gods ruled the world, until the ultimate betrayal resulted in their destruction. Now, the world is dying and only by restoring the Lost Gods can it be saved. In the island nation of Kundou, a prince condemned to a dark fate is determined to use it to set free the power his family has long kept enslaved. The fiery kingdom of Pozhar has worked for centuries to forever destroy the god who once tried to kill them, but others are determined to see the last remaining pieces never reach the sacrificial altar for much more dangerous reasons... In Piedre, zealous cults are determined to either kill or abuse the notorious Basilisk Prince, mortal reincarnation of the lost god of death... Verde, the only country to still love their gods, are preparing yet again to try and restore them in a ceremony that instead always ends in violence and tragedy... And far away in Schatten, sealed from the rest of the world by a dark shadow, the long banned powers of chaos begin to stir...

"According to Ricoeur, the most primal and spontaneous symbols of evil are defilement, sin and guilt ... Ricoeur moves from the elementary symbols of evil into the rich world of myths ... and he ends by suggesting that the clue to the relation between philosophy to mythology is to be found in the aphorism "The symbol gives rise to the thought ... Ricoeur's method and argument are too intricate and rich to assess in so short a review. Suffice it to say that this is the most massive accomplishment of any philosopher within the ambience of Christian faith since the appearance of Gabriel Marcel" - Sam Keen, The Christian Century

An abandoned Egyptian goddess follows her visions to Ireland, and finds more than she ever bargained for... Bat Sitru has been alone for millennia. Once the favored goddess of two kingdoms, she is now nothing but a shadow of herself — no followers, no temples, and only the overly mischievous cat-goddess Bastet for a friend. When her faded visions return and show her a land of green slopes, mist, and rainbows, her hope for a place to belong, a place to call home, is renewed. But visions can be tricky, tricky things. After arriving in Sligo, Ireland, she wonders she's been led astray. She's cold, damp, and her new landlords, the O'Loinsigh brothers, are not particularly welcoming. On top of that, she is confronted by a dead leprechaun on the rear stoop, a dagger that sucks the life of immortals, and territorial gods. As past secrets collide with the present, will Bat be able to carve a place for herself in this new land? Or will this goddess be forgotten once more?

Breaking out of FBI lock up nearly got me killed, but that's nothing compared to getting off this damn island. The gods have descended on New York, and all hell has broken loose. Apparently, they have big plans for the weekend, but I have a feeling it doesn't include taking in a Broadway show. With three gods angling for control and the Forgotten battling it out on every street corner, I want nothing more than to save as many souls as possible and get the hell out of town. But supernatural gridlock is a bitch, and their evil master plan is not something I can just leave behind. I'm Vic Stratton. I've got a werewolf, a demon for hire, and a flaming sword of the gods on my side. It's time to deliver the Big Apple from evil. Buy Gods of New York now and start the second arc of Forgotten Gods!

From Marie Phillips, hailed by the Guardian Unlimited website as a "hot author" destined to "break through" in 2007, comes a highly entertaining novel set in North London, where the Greek gods have been living in obscurity since the seventeenth century. Being immortal isn't all it's cracked up to be. Life's hard for a Greek god in the twenty-first century: nobody believes in you any more, even your own family doesn't respect you, and you're stuck in a dilapidated hovel in North London with too many siblings and not enough hot water. But for Artemis (goddess of hunting, professional dog walker), Aphrodite (goddess of beauty, telephone sex operator) and Apollo (god of the sun, TV psychic) there's no way out... until a meek cleaner and her would-be boyfriend come into their lives and turn the world upside down. Gods Behaving Badly is that rare thing, a charming, funny, utterly original novel that satisfies the head and the heart.

Sian is an experienced clairaudient, clairvoyant, and clairsentient channel of Light who has dedicated many years of her life to the pursuit of helping others improve theirs. Now, in "Healing of the Goddess," she brings readers within a life-changing experience-and the epiphany that it inspired. After her soul was imploded by a massive psychic force, she developed breast cancer, causing a near-death experience that took fifteen years from her life. As she describes an extraordinary experience in her healing journey, the hand of God encapsulated her soul with Light, giving her the strength and faith to endure long healing process to reinstate her body back to life. She explains how breast cancer was the result of a karmic strike and how the Keys of Transformation allowed her to be healed. Cancer, she has come to understand, is a trial by tribulation. "The Healing of the Goddess "explores the cause-and-effect factors that are the real underlyingcauses of disease and recalls Sian's journey of self-healing and transformation.The challenge we all face is to truly understand the nature of life, energy, andhealing. If life is to be sustained, the time has come for humanity to fundamentallyaddress our relationship with all life on this glorious planet. This is an auspicious and providential period in human evolution: Are we enlightened enough to shepherd in a new era of health and peace-or will we condemn it with apathy and ignorance?

The final title from the first Forgotten Realms trilogy ever published, now available as an eBook! Published in 1989, Darkwell was the final novel in the first trilogy ever set in the Forgotten Realms world.

In this book, Yitzhaq Feder presents a novel and compelling account of pollution in ancient Israel, from its emergence as an embodied concept, rooted in physiological experience, to its expression as a pervasive metaphor in social-moral discourse. Feder aims to bring the biblical and ancient Near Eastern evidence into a sustained conversation with anthropological and psychological research through comparison with notions of contagion in other ancient and modern cultural contexts. Showing how numerous interpretive difficulties are the result of imposing modern concepts on the ancient texts, he guides readers through wide-ranging parallels to biblical attitudes in ancient Near Eastern, ethnographic, and modern cultures. Feder demonstrates how contemporary evolutionary and psychological research can be applied to ancient textual evidence. He also suggests a path of synthesis that can move beyond the polarized positions which currently characterize modern academic and popular debates bearing on the roles of biology and culture in shaping human behavior.

This collection of rituals, practices, and exercises has been drawn from ancient sources, some have been preserved and some rituals have been updated by scholars from various pagan groups. This deluxe one-volume edition is specially designed to be read by candlelight.
