Blackmailing my sexy boss, the one with a panty-melting smirk into being my plus-one for a wedding in my hometown while staying at my parents' house for the long weekend-what could possibly go wrong? Duncan Willis is sexy and confident, the kind of man every woman notices. You know, the one with the to-die-for body. And then there's the way his designer suits drape over his broad shoulders and big..well, we've all heard the rumors, the ones that say he's up for any challenge. Men like him don't notice women like me, and they don't date them. Until that one time that I catch him in a compromising position when I'm also in need of a last-minute date for a wedding...and then it's not a real one, simply a plus-one. It's blackmail. \*\*\* That's what Kimbra Jones thinks. Letting her believe she blackmailed me may not be the most conventional way to get on her radar, but I didn't get this far in business without knowing when to seize an opportunity. If this sexy, little firecracker with perfectly kissable lips thinks she can trick me into attending her cousin's wedding, I'm going to jump at the chance to be her plus-one. A sexy, fun stand-alone from New York Times bestselling author Aleatha Romig. You love her darker side. Now it's time to meet Leatha, the lighter side of Aleatha. ?

The ancient Indian Sanskrit tradition produced no text more intriguing, or more persistently misunderstood or underappreciated, than the Mahabharata. Its intricacies have waylaid generations of scholars and ignited dozens of unresolved debates. In Rethinking the Mahabharata, Alf Hiltebeitel offers a unique model for understanding the great epic. Employing a wide range of literary and narrative theory, Hiltebeitel draws on historical and comparative research in an attempt to discern the spirit and techniques behind the epic's composition. He focuses on the education of Yudhishthira, also known as the Dharma King, and shows how the relationship of this figure to others-especially his author-grandfather Vyasa and his wife Draupadi-provides a thread through the bewildering array of frames and stories embedded within stories. Hiltebeitel also offers a revisionist theory regarding the dating and production of the original text and its relation to the Veda. No ordinary reader's guide, this volume will illuminate many mysteries of this enigmatic masterpiece. This work is the fourth volume in Hiltebeitel's study of the Draupadi cult. Other volumes include Mythologies: From Gingee to Kuruksetra (Volume One), On Hindu Ritual and the Goddess (Volume Two), and Rethinking India's Oral and Classical Epics (Volume Three).

Goblin Tales of Lancashire From James Bowker

Book #2 of the INFIDELITY series

"If trees have standing before the law, as many argue, then they might very well also have standing in historicalfiction as Melina Sempill Watts demonstrates in this intriguingnew novel...Blending environmentalism, magical realism, socialhistory, and arboreal science, Tree challenges...readers to regard the natural world with new respect."Dr. Kevin StarrCalifornia State Librarian Emeritus

In the Pacific Northwest, police officer Lindsay Jackman is investigating the murder of a young journalist. Lindsay learns the victim was writing an exposé on a charismatic wellness guru. Marnie Spellman built a cosmetics empire and became a legend, a healer, and the queen of holistic health and eternal beauty. In her inner circle is an intimate band of devotees called the Hive. Lindsay focuses her investigation on Marnie and the former members of the Hive, who are just as determined to keep Lindsay from their secrets as they are to maintain their status.

The Baital Pacheesi These immortal tales of chivalry and skullduggery, wisdom and foolishness, honesty and deceit, are about Baital, a mythical wraith like figure, accredited with supernatural powers, and King Vikramaditya whose wisdom is matched only by King Solomon of Biblical fame. For those interested in the ancient sayings, riddles, fables and stories of India, these short tales will prove highly entertaining.

Part of a series which offers information on existing ways of improving the technology of food processing and increasing the quality and range of food stuffs produced. This book provides an insight into the processing of four cereal crops - maize, rice, sorghum and wheat.
