First to be discussed is the machine metaphor, which took a mechanistic view of human motivation and gave rise to Freudian, Hullian and Gestalt theories. Then Weiner discusses why this paradigm was abandoned in favour of another, which led to Expectancy-Value and Attribution theories.

Human Motivation: Metaphors, Theories, and Research ...

By using the device of metaphor, Bernard Weiner has brilliantly clarified the relationship among the different theoretical perspectives on motivation. Encompassing both research and theory, the volume surveys classical and recent motivation theories, and culminates in an exciting and challenging new perspective.
