Sports officials (umpires, referees, judges) play a vital role in every sport, and sports governing bodies, fans, and players now expect officials to maintain higher professional standards than ever before. In this ground-breaking book, a team of leading international sport scientists and top level officials have come together to examine, for the first time, the science and practice of officiating in sport, helping us to better understand the skills, techniques and physical requirements of successful refereeing. The book covers every key component of the official's role, including: Training and career development Fitness and physical preparation Visual processing Judgement and decision-making Communication and game management Psychological demands and skills Using technology Performance evaluation Researching and studying officials in sport Top-level officials or officiating managers contribute in the 'Official's Call' sections, reflecting on their experiences in real in-game situations across a wide range of international sports, and on how a better understanding of science and technique can help improve professional practice. No other book has attempted to combine leading edge contemporary sport science with the realities of match officiating in this way, and therefore this book is vital reading for any advanced student of sport science, sport coaching or sport development, or any practising official or sports administrator looking to raise their professional standards.

Written by soccer great and championship Stanford coach Bobby Clark, *COACHING YOUTH SOCCER: THE BAFFLED PARENT'S GUIDE* tells you how, starting at point zero, an uninitiated coach can meld kids into a team and help them enjoy one of the most rewarding experiences of their youth. (In the end, you may be the one who reaps the biggest reward, as you watch kids learn and grow in an experience they'll treasure for a lifetime.)

For a long time, various different lobbying sectors have claimed that the use of video technology is an effective aid in decision-making. Now the IFAB has taken a historic step in the approval of experiments on the use of video to provide support to football refereeing. *The Use of Video Technologies in Refereeing Football and Other Sports* analyses the capacity of audio-visual technology from different perspectives to help understand the best implementation of the Video Assistant Referee (VAR) system in football and, more generally, in other sports. This book addresses in-depth interdisciplinary viewpoints on the need and the opportunity of the implementation procedures regarding how to use it, considering that it could lead to very important changes. The book goes on to examine various approaches to the most interesting topics for players, amateurs, coaches, referees and referees coaches. Offering viewpoints from both academics and professionals, this new volume addresses the VAR issue in a multidisciplinary way, analysing the implications of video replay application in football from the perspective of players, coaches, television professionals, referees, amateurs, sports lawyers, media and educators.
