...

A theory is a related set of concepts and principles - about a phenomenon - the purpose of which is to explain or predict the phenomenon. Why theory is important. 1. Theory provides concepts to name what we observe and to explain relationships between concepts. Theory allows us to explain what we see and to figure out how to bring about change.

...

Theory is a set of ideas based on a framework to explain a phenomenon, or more simply put its how and why I think something happens. There are theories of everything, but for this introduction we are talking about political, economic and social theory as well as philosophical ideas. These types of theory are pretty self explanatory, political theory concerns itself with politics and political ideas, economics concerns itself with economic systems and how they operate and social theory ...

## **Introduction to the Theory of Relativity: Bergmann, Peter ...**

This course focuses on the  
phenomenon of  
ferromagnetism.

Ferromagnetism is a  
magnetically ordered state  
of matter in which atomic  
magnetic moments are  
parallel to each other, so  
that the matter has a  
spontaneous magnetization.

## **Introduction to the Theory of Ferromagnetism | edX**
