Job Instruction (JI) For Facilitators. Job Instruction (JI) is a fundamental element of Lean and the first TWI course. Its purpose is to get people fully trained and adding value to the organization in the shortest period of time possible while preventing problems that could arise from faulty instruction. JI establishes a single best method for doing a job and allows a trainer to transfer knowledge to a learner quickly while also verifying comprehension using a simple four-step method.

The Lean Construction Institute (LCI) sees Lean delivery as a way of responding to customer and supply chain dissatisfaction with the building industry. The LCI cites decreased productivity and efficiency in the construction industry as a driver towards Lean approaches, and uses its trademarked Last Planner System to reduce workflow variability so projects are more predictable and coordination is simpler.

~~The Complete Guide to Lean Project Management | Smartsheet~~

January 23, 2018 by Christoph Roser. Arguably the most successful module of Training within Industry is Job Instructions, or JI for short. JI has a precise focus on one topic: how to train your workers. The method is very simple and basic but works well. Of course, there are some limitations. The process works well with pretty much any type of work, but it is best done one-on-one, as it was intended.

~~Ji: Training within Industry - Job Instructions ...~~

The job instruction sheet is one of three basic forms for creating standardized work, along with the standardized work chart and standardized work combination table. The purpose of standardized work, according to Kaizen Express from which this form is taken, is to provide a basis for continuous improvement through kaizen.
