This book will become available digitally here as an Open Access resource at publication. The unforeseen Covid-19 pandemic has propelled, and continues to propel, unprecedented transformations to civil proceedings and the landscape in which they operate. Courts have proven to be creative and innovative in their responses to the pandemic, and in their ability to implement digitisation of paperwork and remote hearings. This book contains a comparative study of how courts in 23 countries have coped with the pandemic, addressing selected innovations and adaptations to court proceedings, factors facilitating and impeding the digital leap, and new concerns that new technology and the pandemic

engenders. The authors discuss the implications of digitisation, such as ensuring equal access to courts, novel issues concerning fair trial rights in remote proceedings, the role of alternative dispute resolution during the pandemic, and the roots of resistance to digitisation. Several contributions also address whether and how innovations during the pandemic may transform civil litigation in the future.

Derived from the renowned multi-volume International Encyclopaedia of Laws, this convenient volume provides comprehensive analysis of the legislation and rules that determine civil procedure and practice in the European Union. Lawyers who handle transnational matters will appreciate the book's clear explanation of distinct terminology and application of rules. The structure follows the classical chapters of a handbook on civil procedure: beginning with the judicial organization of the courts, jurisdiction issues, a discussion of the various actions and claims, and then moving to a review of the proceedings as such. These general chapters are followed by a discussion of the incidents during proceedings, the legal aid and legal costs, and the regulation

of evidence. There are chapters on seizure for security and enforcement of judgments, and a final section on alternative dispute resolution. Facts are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance. Succinct, scholarly, and practical, this book will prove a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in the European Union will welcome this very useful guide, and academics and researchers will appreciate its comparative value as a contribution to the study of civil procedure in the international context.

The editors' earlier book *Delivering Family Justice in the 21st Century*

(2016) described a period of turbulence in family justice arising from financial austerity. Governments across the world have sought to reduce public spending on private quarrels by promoting mediation (ADR) and by beginning to look at digital justice (ODR) as alternatives to courts and lawyers. But this book describes how mediation has failed to take the place of courts and lawyers, even where public funding for legal help has been removed. Instead ODR has developed rapidly, led by the Dutch Rechtwijzer. The authors question the speed of this development, and stress the need for careful evaluation of how far these services can meet the needs of divorcing families. In this book, experts from Canada, Australia, Turkey, Spain, Germany, France, Poland, Scotland,

and England and Wales explore how ADR has fallen behind, and how we have learned from the rise and fall of ODR in the Rechtwijzer about what digital justice can and cannot achieve. Managing procedure and process? Yes. Dispute resolution? Not yet. The authors end by raising broader questions about the role of a family justice system: is it dispute resolution? Or dispute prevention, management, and above all legal protection of the vulnerable?

The Arrest Conventions, signed in 1952 and 1999, play a fundamental role in the worldwide enforcement of maritime claims. Arrest of ships is one of the most distinctive features of international maritime law. It provides a powerful, efficient and effective means of enforcing maritime claims in rem, obtaining sufficient asset security and preserving property pending substantive proceedings. Ship arrest is, however, also a draconian power that cuts across property rights and can cause considerable commercial harm to shipowning interests. This

book provides thematic and comparative analysis from leading international commentators on the most significant legal and policy issues, including practical problems arising from the Arrest Convention texts, as well as the direct implementation or indirect 'translation' of the Arrest Conventions into domestic legal systems. It critically analyses the political and historical development of the Conventions, explores the key concepts underpinning the Arrest Convention frameworks and considers the future of ship arrest.

European Rules of Civil Procedure. It explains the intended application of this "best practice" set of collective redress rules, intended to promote greater consistency in civil and commercial court procedure across Europe, linking to existing European practice and initiatives in the field.

The contributions in this book cover a wide range of topics within modern disputeresolution, which can be summarised as follows: harmonisation, enforcement and alternative dispute resolution. In particular, it looks into the impact of harmonised EU law on national rules of civil procedure and addresses the lack of harmonisation in the US regarding the recognition and enforcement of foreign judgments. Furthermore, the law on enforcement is examined, not only by focusing on US

law, but also on how to attach assets in order to enforce a judgment. Finally, it addresses certain types of alternative dispute resolution. In addition, the book looks into the systems and cultures of dispute resolution in several regions of the world, such as the EU, the US and China, that have a high impact on globalisation. Hence, the book is diverse in the sense of dealing with multiple issues in the field of modern dispute resolution. The book offers explorations of the impact of international rules and EU law on domestic civil procedure, through case studies from, among others, the US, China, Belgium and the Netherlands. The relevance of EU law for the national debate and its impact on the regulation of civil procedure is also considered. Furthermore, several contributions discuss the necessity and

possibility of harmonisation in the emergency arbitrator mechanisms in the EU. The harmonisation of private international law rules within the EU, particularly those of a procedural nature, is juxtaposed to the lack thereof in the US. Also, the book offers an overview of the current dispute settlement mechanisms in China. The publication is primarily meant for legal academics in private international law and civil procedure. It will also prove useful to practitioners regularly engaged in cross-border dispute resolution and will be of added value to advanced students, as well as to those with an interest in international litigation and more generally in the area of dispute resolution. The Active Role of Courts in Consumer Litigation traces the emergence of a specific EU Law doctrine governing the role of the national courts in proceedings involving consumers that whilst only established more recently, has already become an important benchmark for effective consumer protection.
