Engines and Components

MAN has introduced its new D08 SCR engine for TGL and TGM models. It incorporates the SCR system and dispenses the EGR, and is offered in versions of four and six cylinders. The German brand also introduces new functions for its Tip Matic gearbox while optimizing the interior of its vehicles, with the location of the rotary shift control in the center console as the main novelty.

MAN launches the new D08 SCR engine for its TGL and TGM ...

MAN TGM D08 engine in Euro 6. Even lighter for greater payloads: the MAN D08 engine weighs in up to 103 kg lighter on the scales than its predecessor. Thanks to a robust, plastic oil sump and a reduced number of component parts, not only the weight and maintenance requirements of the engine have been reduced, but also its fuel consumption.
