Here's how the printing  
process goes: Raise the

screen up off the paper and  
hold it in place with your  
belly (or rest it on your  
belt buckle). Apply a thick  
strip of ink to the base of  
the screen, under the  
artwork with a palette  
knife, roughly three fingers  
width either side of where  
the ink will end up.

Tom: RushOrderTees has twelve manual presses and continues to do a lot of printing on them, but manual press use will decrease as Direct-To-Garment printing improves.
