This Introduction to Irish law booklet is a handy little number, it is compiled so that the most difficult and challenging terminology, rules and principles are explained, leaving you to enjoy learning about the law in Ireland without the headache of first learning terminology and confounding principles. Torts are wrongdoings; done by one person against another. When one person wrongs another, the injured person may take civil action against the other person. In plain English, let's say while walking down the fruit and veg aisle of your local supermarket, you slip on a grape that had fallen from the shelf and injure yourself. You become the plaintiff, or injured party, and the supermarket is considered the tortfeasor or defendant, they are defined as the negligent party. When this happens you can take civil action against the supermarket to claim compensation for pain, suffering, medical bills and expenses incurred as a result of the fall. Negligence is just one tort category. This booklet will go through all of the different types. This basic introductory booklet is just that, a layman's guide, it is not meant to be an academic text book, it is merely a guide, however, saying that, many first year law students on the CPA, ATI and ACCA courses as well as year one legal proactive and LLB students find it invaluable as it introduces all the rules and principles in plain English and they can then get on with the important task of learning the terminology once they come to grasps with the principles. There is a self-test MCQ at the end of the book AND answers. **Warning; another disclaimer ** This booklet has at its core, terminology which is aimed at a novice, it has some terminology explained in plain English in brackets (like this) and explanations of core rules and principles (at the end of paragraphs), it has icons and also humorous pictures (to remove the staunchness of legal reading), and at the end it has some court humour excerpts and the lighter side of law, a look at some old, strange and by modern standards, weird laws, if you don't want to see these when you are reading your legal book, probably best for you not to buy/read this one Contents The Law of Tort Types of Tort Intentional Torts Trespass to the person Threats Silent phone calls Trespass torts in medicine Defences to the tort of trespass Consent Self-defence Defence of Third Persons Lawful Authority Defence of Property Duress (pressure or threat) Trespass to Land Trespass to Goods Conversion Sample conversion Chose in Action (Intangible Property - Transferable by assignment) Trespass to Goods - Detinue Nuisance Private Nuisance Locus Standi Omissions Damage or Interference Material Damage Interference with enjoyment Magnitude of harm Nature of locality Defendant's motives Social utility Defences to Private Nuisance Remedies Injunctions Public Nuisance: Pure Economic Loss Remedies Damages Injunctions Private Rented Tenants: Local Authority Tenants: Private Homeowner: Alarms Passing Off Elements of Passing off Defamation Defences to Defamation. The question of when a person is culpable for taking an unjustified risk of harm has long been controversial in Anglo-American criminal law doctrine and theory. This survey of the approaches adopted in England and Wales, Canada, Australia, the United States, New Zealand and Scotland argues that they are converging, to differing extents, around a 'Standard Account' of culpable unjustified risk-taking. This Standard Account distinguishes between awareness-based culpability (recklessness) and inadvertence-based culpability (negligence) for unjustified risk-taking. With reference to criminal law theory and philosophical literature, the author argues that, when explained appropriately, the Standard Account is defensible and practical. Defending the Standard Account involves analysing in depth a number of controversial matters, including the meaning of advertence/awareness, the role of attitudes such as indifference in culpable risk-taking, and the question of whether negligence should be used in the criminal law.
