In a concise, straightforward voice, Maxwell focuses on essential and time-tested qualities necessary for developing mentoring relationships that make a difference in the lives of colleagues and the life of a business.

Discusses eight fundamentals needed for leadership, including attitude, relationships, mentoring, and more.

This is the most complete career resource guide book for engineers dealing with the non-technical side of engineering. It provides career advice for engineers at all stages of their careers, whether newly graduated, mid-career, or soon-to-be-retired. This book provides many real world, practical, proven, common sense career tips supported by actual work and experiences/examples. Tips deal with problems the engineer may encounter with supervisors, co-workers and others in the corporation. The book provides step-by-step guidance on how to deal with career problems and come out ahead.

Mentors will discover strategies for meeting the diverse needs of their mentor/mentee relationships, developing useful mentoring tools, and continuing to learn and grow professionally.

Patterned after Strunk and White's classic The Elements of Style, this new edition concisely summarizes the substantial existing research on the art and science of mentoring. The Elements of Mentoring reduces this wealth of published material on the topic to the sixty-five most important and pithy truths for supervisors in all fields. These explore what excellent mentors do, what makes an excellent mentor, how to set up a successful mentor-protégé relationship, how to work through problems that develop between mentor and protégé, what it means to mentor with integrity, and how to end the relationship when it has run its course. Succinct and comprehensive, this is a must-have for any mentor or mentor-to-be.

Unleash your leadership potential. No matter who you are, you can lead—and lead well. That is the message New York Times bestselling author John C. Maxwell gives in this power-packed guidebook: Leadership 101. Here the consummate leader offers a succinct and inspiring framework for enhancing the leadership abilities you already possess. Learn how to: Follow your vision and bring others with you Produce a lasting legacy Grow the loyalty of your followers Make continual investments in the quality of your leadership Increase your ability to influence others Determine your leadership "Iid" Empower others through mentoring Create a foundation of trust Use self-discipline to improve your character—and your results One of the keys to successful leadership is applying the concepts that have made other leaders strong. Here's your opportunity to do just that.

A comprehensive guide to building successful relationships with all school personnel! Ideal for practicing and aspiring principals, this in-depth resource presents policies, procedures, and techniques for managing faculty and support staff and creating effective work environments. The authors provide case studies, strategies, and reflective exercises in each chapter to help administrators evaluate their schools and practices. Based on ISLLC and ELCC standards for school leadership, this book covers: Shaping school culture to promote shared ownership of the school's vision Recruiting, selecting, and retaining qualified personnel Effective communication and conflict resolution Handling challenging situations such as supervising marginal employees and addressing grievances

This report contains fifteen presentations from a workshop on best practices in managing diversity, hosted by the NAE Committee on Diversity in the Engineering Workforce on October 29-30, 2001. NAE (National Academy of Engineering) president William Wulf, IBM vice-president Nicholas Donofrio, and Ford vice-president James Padilla address the business case for diversity, and representatives of leading engineering employers discuss how to increase the recruitment, retention, and advancement of women and underrepresented minorities in engineering careers. Other speakers focus on mentoring, globalization, affirmative action backlash, and dealing with lawsuits. Corporate engineering and human resources managers attended the workshop and discussed diversity issues faced by corporations that employ engineers. Summaries of the discussions are also included in the report.

Bestselling author John C. Maxwell shows you how the Golden Rule works everywhere, and how, especially in business, it brings amazing dividends.
