Military industrialization and economic development: Jordan's defense industry Jordan is a recent entrant to the domestic defense industry with the establishment of King Abdullah II Design and Development Bureau (KADDB) in 1999.

Military industrialization and economic development ...

If the military is any more involved in economic growth, it is likely to be in security- oriented development projects (such as construction of infrastructure), civic action, or disaster relief operations.3In this framework, a stable and secure polity (as a result of strong defence capabilities) is able to attract foreign direct investments (FDI) that provides for economic growth and development.

The Political Economy of Defence Industrialization and ...

This book develops a framework for the analysis of the relationship between arms production and economic development in different types of economies and international conditions. Technological and organizational factors are taken into account. The case studies include Japan and Great Britain before World War I and Brazil and the USA after World War II. The main finding of the book is that the ...
