Three years ago, 32-year-old Markus "Notch" Persson of Stockholm was an unknown and bored computer programmer. Today, he is a multi-millionaire international icon. Minecraft, the "virtual Lego" game Markus crafted in his free time, has become one of the most talked about activities since Tetris. Talked about by tens of millions of people, in fact. It is the story of unlikely success, fast money, and the power of digital

technology to rattle an empire. And it is about creation, exclusion, and the feeling of not fitting in. Here Markus opens up for the first time about his life. About his old Lego-filled desk at school. About the first computer his father brought home one day. But also about growing up in a family marked by drug abuse and conflict. But above all it is the story of the fine line between seeming misfit and creative madman, and the birth of a tech visionary. Minecraft: The Unlikely Tale of Markus "Notch" Persson and the Game that Changed Everything is a Cinderella story for the Internet age.

Fairy tales are written both to entertain and to educate. Published in the shadow of the First World War, F. A. Steel's retellings of forty-one English fairy tales form a classic collection of

stories, ranging from the familiar - 'Jack and the Beanstalk', 'Little Red Riding-Hood' and 'The Three Little Pigs' - to the perhaps less well known - 'The Black Bull of Norrway', 'Nix Nought Nothing' and 'The Red Ettin'. Originally published in 1918, it reflects the nationalistic concerns of the period. Steel takes the reader on a journey, from Cornwall to Bamburgh Castle via a palace by the sea, as well as high into the sky, where a giant lives. The magical tales in English Fairy Tales are brought to life by one of the best-known illustrators of the time, Arthur Rackham. Designed to appeal to the book lover, the Macmillan Collector's Library is a series of beautiful gift editions of much loved classic titles. Macmillan Collector's Library are books to love and treasure.

This official Minecraft novel is an action-packed thriller! When a new virtual-reality version of the game brings her dreams—and doubts—to life, one player must face her fears. Bianca has never been good at following the plan. She's more of an act-now, deal-with-the-consequences-later kind of person. But consequences can't be put off forever, as Bianca learns when she and her best friend, Lonnie, are in a terrible car crash. Waking up in the hospital, almost paralyzed by her injuries, Bianca is faced with questions she's not equipped to answer. She chooses instead to try a new virtual-

reality version of Minecraft that responds to her every wish, giving her control over a world at the very moment she thought she'd lost it. As she explores this new realm, she encounters a mute, glitching avatar she believes to be Lonnie. Bianca teams up with Esme and Anton, two kids who are also playing on the hospital server, to save her friend. But the road to recovery isn't without its own dangers. The kids are swarmed by mobs seemingly generated by their fears and insecurities, and now Bianca must deal with the uncertainties that have been plaguing her: Is Lonnie really in the game? And can Bianca help him return to reality? Collect all of the official Minecraft books: Minecraft: The Island Minecraft: The Crash Minecraft: The Lost Journals Minecraft: The Survivors Book of
