The solution is this this OrangeRx receiver. The R610V2 works with Spektrum DSM2 2.4GHz transmitters and is compatible with CPPM and PWM radio inputs. The CPPM functionality is an excellent feature for use with multi-rotor flight controllers such as the Naze32, APM, MultiWii and others. This single line connection removes the weight and mess of additional wire leads for each individual channel ...

A review of the Hobby King Spektrum compatible DSM2 receiver is long overdue -- so here it is. Bottom line: it is surprisingly well made and seems to perform...

~~Review: HobbyKing Orange DSM2 receiver - YouTube~~

Lemon receivers match, or better, the range of comparable Spektrum DSM2/DSMX and other DSM2/DSMX-compatible receivers under the same conditions. However the range of any receiver is affected by the number of antennas (aerials) and their orientation, as well as by the installation in the model, making comparisons difficult.
