One of the biggest thrills for me was hearing my students put into use Seth's Permission Marketing phrase "Turning strangers into friends and friends into customers" -- even months after the class ended! Not only is that a testament to the clarity and brevity of Seth's ideas, it's also the distillation of his book's premise. For in today's world, we're bombarded by no less than 3,000 paid advertising messages per day.

Information Age" explains "Permission Marketing" -- the groundbreaking concept that enables marketers to shape their message so that consumers will willingly accept it. Whether it is the TV commercial that breaks into our favorite program, or the telemarketing phone call that disrupts a family dinner, traditional advertising is based on the hope of snatching our attention away from whatever we are doing. Seth Godin calls this Interruption Marketing, and, as companies are discovering, it no longer works. Instead of annoying potential customers by interrupting their most coveted commodity -- time -- Permission Marketing offers consumers incentives to accept advertising voluntarily. Now this Internet pioneer introduces a fundamentally different way of thinking about advertising products and services. By reaching out only to those individuals who have signaled an interest in learning more about a product, Permission Marketing enables companies to develop long-term relationships with customers, create trust, build brand awareness -- and greatly improve the chances of making a sale. In his groundbreaking book, Godin describes the four tests of Permission Marketing: 1. Does every single marketing effort you create encourage a learning relationship with your customers? Does it invite customers to "raise their hands" and start communicating? 2. Do you have a permission database? Do you track the number of people who have given you permission to communicate with them? 3. If

consumers gave you permission to talk to them, would you have anything to say? Have you developed a marketing curriculum to teach people about your products? 4. Once people become customers, do you work to deepen your permission to communicate with those people? And in numerous informative case studies, including American Airlines' frequent-flier program, Amazon.com, and Yahoo!, Godin demonstrates how marketers are already profiting from this key new approach in all forms of media.

Seth Godin calls this Interruption Marketing, and, as companies are discovering, it no longer works. Instead of annoying potential customers by interrupting their most coveted commodity, time, Permission Marketing offers consumers incentives to voluntarily accept advertising. Now the Internet pioneer who has dramatically improved marketing effectiveness in media introduces a fundamentally different way of thinking about advertising products and services. that redefined what it means to be a leader. Since it was first published almost a decade ago, Seth Godin's visionary book has helped tens of thousands of leaders turn a scattering of followers into a loyal tribe. If you need to rally fellow employees, customers, investors, believers, hobbyists, or readers around an idea, this book will demystify the process. It's human nature to seek out tribes, be they religious, ethnic, economic, political, or even musical (think of the Deadheads). Now the Internet has eliminated the barriers of geography, cost, and time. Social media gives anyone who wants to make a difference the tools to do so. With his signature wit and storytelling flair, Godin presents the three steps to building a tribe: the desire to change things, the ability to connect a tribe, and the willingness to lead. If you think leadership is for other people, think again—leaders come in surprising packages. Consider Joel Spolsky and his international tribe of scary-smart software engineers. Or Gary Vaynerhuck, a wine expert with a devoted following of enthusiasts. Chris Sharma led a tribe of rock climbers up impossible cliff faces, while Mich Mathews, a VP at Microsoft, ran her internal tribe of marketers from her cube in Seattle. Tribes will make you think—really think—about the opportunities to mobilize an audience that are already at your fingertips. It's not easy, but it's easier than you think.

Evaluates the significant role being played by technological advances on the formation and experience of modern group dynamics, citing such examples as Wikipedia and MySpace to demonstrate the Internet's power in bridging geographical and cultural gaps. 40,000 first printing.

The indispensable classic on marketing by the bestselling author of Tribes and Purple Cow. Legendary business writer Seth Godin has three essential questions for every marketer: "What's your story?" "Will the people who need to hear this story believe it?" "Is it true?" All marketers tell stories. And if they do it right, we believe them. We believe that wine tastes better in a \$20 glass than a \$1 glass. We believe that an \$80,000 Porsche is vastly superior to a \$36,000 Volkswagen that's virtually the same car. We believe that \$225 sneakers make our feet feel better—and look cooler—than a \$25 brand. And believing it makes it true. As Seth Godin has taught hundreds of thousands of marketers and students around the world, great marketers don't talk about features or even benefits. Instead, they tell a story—a story we want to believe, whether it's factual or not. In a world where most people have an infinite number of choices and no time to make them, every organization is a marketer, and all marketing is about telling stories. Marketers succeed when they tell us a story

that fits our worldview, a story that we intuitively embrace and then share with our friends. Think of the Dyson vacuum cleaner, or Fiji water, or the iPod. But beware: If your stories are inauthentic, you cross the line from fib to fraud. Marketers fail when they are selfish and scurrilous, when they abuse the tools of their trade and make the world worse. That's a lesson learned the hard way by telemarketers, cigarette companies, and sleazy politicians. But for the rest of us, it's time to embrace the power of the story. As Godin writes, "Stories make it easier to understand the world. Stories are the only way we know to spread an idea. Marketers didn't invent storytelling. They just perfected it."

The Insider's Guide to Making Money in the Music Industry. Millions dream of attaining glamour and wealth through music. This book reveals the secrets of the music business that have made fortunes for the superstars. A must-have for every songwriter, performer and musician.

Everything in our world, from marketing to technology to distribution to the capital markets, is moving at a faster pace than ever. Yet most companies view change as a threat, and survival as the goal. This book transforms all that. It contains a simple yet revolutionary idea: we can evolve our companies the same way nature evolves a species.

Evolution is a fundamental force of nature, and Seth Godin demonstrates how it can be put to work in any organisation. The first step is to eliminate the anti-change reflex that's genetically coded into all of us. Once a company learns to 'zoom' (to change without panicking), it is much more likely to evolve. And a company that evolves can become ever more profitable. For the last five years, bestselling author Seth Godin has repeatedly demonstrated the power of his books by living their advice. He used the tactics in PERMISSION MARKETING to drive the book up the bestseller list. He followed the advice of UNLEASHING THE IDEA VIRUS to turn his treatise into a living example of an ideavirus. Now, as a committed zoomer, he shows his legions of fans how to turn their company into one that can zoom from one change to another. It's a formula for success whether the market is up or down, whether technology is hot or not, in all industries, from retail to tech to services.

World of Warcrafters, LARPerS, Settlers of Catan? Weird. Beliebers, Swifties, Directioners? Weirder. Paleos, vegans, carb loaders, ovolactovegetarians? Pretty weird. Mets fans, Yankees fans, Bears fans? Definitely weird. Face it. We're all weird. So why are companies still trying to build products for the masses? Why are we still acting like the masses even exist? Weird is the new normal. And only

Coca-Cola. Harley-Davidson. Nike. Budweiser. Valued by customers more for what they symbolize than for what they do, products like these are more than brands--they are cultural icons. How do managers create brands that resonate so powerfully with consumers? Based on extensive historical analyses of some of America's most successful iconic brands, including ESPN, Mountain Dew, Volkswagen, Budweiser, and Harley-Davidson, this book presents the first systematic model to explain how brands become icons. Douglas B. Holt shows how iconic brands create "identity myths" that, through powerful symbolism, soothe collective anxieties resulting from acute social change. Holt warns that icons can't be built through conventional branding strategies, which focus on benefits, brand personalities, and emotional relationships. Instead, he calls for a deeper cultural perspective on traditional marketing themes like targeting, positioning, brand equity, and brand loyalty--and outlines a distinctive set of "cultural branding" principles that will radically alter how companies approach everything from marketing strategy to market research to hiring and training managers. Until now, Holt shows, even the most successful iconic brands have emerged more by

intuition and serendipity than by design. With *How Brands Become Icons*, managers can leverage the principles behind some of the most successful brands of the last half-century to build their own iconic brands. Douglas B. Holt is associate professor of Marketing at Harvard Business School.
