CONTENTS: Basic principles, clutches, mechanical transmissions, hydrostatic transmissions, belt & chain drives, differentials, final drives, power take-offs, service & maintenance & troubleshooting.

We welcome you to the Second International Conference on E commerce and Web Technology (ECWEB 2001) held in conjunction with DEXA 2001 in Munich, Germany. This conference, now in its second year, is a forum to bring together researchers from academia and commercial developers from industry to discuss the state of the art in E commerce and web technology and explore new ideas. We thank you all for coming to Munich to participate and debate the new emerging advances in this area. The research presentation and discussion during the conference will help to exchange new ideas among the researchers, developers, and practitioners. The conference program consists of an invited talk by Hannes Werthner, University of Trento, Italy, as well as the technical sessions. The regular sessions cover topics from XML Transformations and Web Development to User Behavior and Case Studies. The workshop has attracted more than 80 papers and each paper has been reviewed by at least 3 program committee members for its merit. The program committee have selected 31 papers for presentation. We would like to express our thanks to the people who helped put together the technical program: the program committee members and external reviewers for their timely and rigorous reviews of the papers, the DEXA organizing committee for their help in administrative work and support, and special thanks to Gabriela Wagner for always responding promptly.

This book examines the sports industry as a broad business and economic sector with an enormous influence on regional economic development. Covering topics such as sports economics, financing sports organizations, sustainability management in sports, sports tourism and doping among athletes, this book provides a timely collection of research and best practices in the areas of sports management and policy. Sports activity is a rapidly growing and evolving industry, offering numerous business opportunities--from the manufacturing of sporting equipment and activity at gyms and sports centers to revenue from sporting events and sport tourism. In order for the varied businesses across the sport industry, whether public or private, to be successful, proper management strategies and policies must be in place. This includes the knowledge of the industry, strategic planning, sector analysis, quality management and sustainable (economic and environmental) use of resources. Featuring case examples from several countries, including Spain, Turkey, Uruguay, Portugal, and Italy, this volume provides international perspectives on a wide spectrum of managerial issues across this dynamic industry.

Teaches students to diagnose, service, and repair all makes and models of gasoline and diesel engines.

Chilton is pleased to distribute Porter Repair Manuals in North America.
