WHAT PEOPLE ARE SAYING ABOUT DAVID BLAKE'S WORK "Absurd comedy of the style Douglas Adams used to grace us with has been in short supply since he left for what has been, I must say, an unreasonably long tea time. Though many have attempted to fill in during his absence, this work comes closer than anything I've since read without sounding like it's specifically trying to fill those sweaty, beer-soaked loafers." has all the characteristics to make it a cult classic and I can't wait to start the follow ups." Read it Ray, Amazon.co.uk "Funny, quirky, absurd, and silly and altogether BRILLIANT." Ldub, Amazon.com "Just read it, honestly, its great. Odd. But great." ALT31, Amazon.co.uk "Very funny, unpredictable, good pace. I'm now reading his second book and so far just as good and just as unpredictable. If you have a sense of humour and want to be amused and entertained this is the writer for you." Amazon Customer, Amazon.co.uk "What an amazing book - I loved it! It really is laugh out, and was a most hilarious read - great fun! Love Becky, and enjoyed all her exploits - poor Cat Spam! It's just a sheer blast of fun and solid laughs!!!!"JR TLVR, Amazon.com"Fantastically funny, loved every page."Mark Anderson, Amazon.co.uk" I was laughing out loud within the first 5 minutes. The humor is extremely reminiscent of John Cleese in his best era. Absolutely ludicrous situations in fun settings poking humor at established institutions. Terrifically funny much of the way. Occasionally lost the perspective of what this story was about

warming, overpopulation and not enough people using deodorant. Blake Carter, star agent with the Planetary Bureau of Investigation, isn't having a good day. First he's beaten up by a bunch of religious zealots, and then he's assigned a robot—sorry, cyborg—as his new partner, right before his ex-wife calls to tell him his daughter has gone missing. His car keeps criticising his driving, and finally, to top things off, the world is held to ransom by his nemesis, evil genius Bartholomew Badde. Can things get any worse? Yes! Darrell Pitt began his lifelong appreciation of Victorian literature when he read Sherlock Holmes stories as a child, quickly moving on to H. G. Wells and Jules Verne. This early reading led to a love of comics, science fiction and all things geeky. Darrell is the author of *A Toaster on Mars* and *the Jack Mason*

This book is a cross-cultural intervention in analytic epistemology that offers an alternative to the narrow conception of knowledge as justified true belief. It develops a framework for a comparative epistemology, illustrating the hermeneutic circularity of knowing to accurately and responsibly approach both Western and non-Western philosophy.
