There is a space within you where you are already perfect, whole, and complete. It is pure consciousness - the space inside of which all thoughts come and go. When you rest in the feeling of this space, the warmth of it heals your mind and body. When you operate from the infinite creative potential of this space, you produce high levels of performance and creative flow. When you sit in the openness of this space with others, you experience a level of connection and intimacy that is breathtakingly enjoyable and filled with love. And when you explore this space more deeply, you will find yourself growing closer and closer to the divine, even if you're not sure there is such a thing and wouldn't know how to talk about it if there was. Every problem we have in life is the result of losing our bearings and getting caught up in the content of our own thinking; the solution to every one of those problems is to find our way back home.This is both the invitation and the promise of this book. One problem. One solution. Infinite possibilities. Are you ready to begin?

Compiles over 13,000 scholarships and college funding programs that are based on merit rather than financial need.

Innovative clinicians share their experiences integrating Polyvagal Theory into their treatment models. Clinicians who have dedicated their work to bringing the benefits of the Polyvagal Theory to a range of clients have come together to present Polyvagal Theory in a creative and personal way. Chapters on a range of topics from compassionate medical care to optimized therapeutic relationships to clinician's experiences as parents extract from the theory the powerful influence and importance of cases and feelings of safety in the clinical setting. Additionally, there are chapters which elaborate on the principle of safety in clinical practice with children with abuse histories explain the restorative consequences of movement, rhythm, and dance in promoting social connectedness and resilience in trauma survivors explains how Polyvagal Theory can be used to understand the neurophysiological processes in various therapies discuss dissociative processes and treatments designed to experience bodily feelings of safety and trust examine fear of flying and how using positive memories as an active "bottom up" neuroceptive process may effectively down-regulate defense shed light on the poorly understood experience of grief Through the insights of innovative and benevolent clinicians, whose treatment models are Polyvagal informed, this book provides an accessible way for clinicians to embrace this groundbreaking theory in their own work.
