Examines the financial world's shift from healthy long-term investment to damaging speculation, and outlines helpful hints for investors to avoid common hazards.

Recommended Reading by Warren Buffet in his March 2013 Letter to Shareholders How speculation has come to dominate investment—a hard-hitting look from the creator of the first index fund. Over the course of his sixty-year career in the mutual fund industry, Vanguard Group founder John C. Bogle has witnessed a massive shift in the culture of the financial sector. The prudent, value-adding culture of long-term investment has been crowded out by an aggressive, value-destroying culture of short-term speculation. Mr. Bogle has not been merely an eye-witness to these changes, but one of the financial sector's most active participants. In *The Clash of the Cultures*, he urges a return to the common sense principles of long-term investing. Provocative and refreshingly candid, this book discusses Mr. Bogle's views on the changing culture in the mutual fund industry, how speculation has invaded our national retirement system, the failure of our institutional money managers to effectively participate in corporate governance, and the need for a federal standard of fiduciary duty. Mr. Bogle recounts the history of the index mutual fund, how he created it, and how exchange-

traded index funds have altered its original concept of long-term investing. He also presents a first-hand history of Wellington Fund, a real-world case study on the success of investment and the failure of speculation. The book concludes with ten simple rules that will help investors meet their financial goals. Here, he presents a common sense strategy that "may not be the best strategy ever devised. But the number of strategies that are worse is infinite." The Clash of the Cultures: Investment vs. Speculation completes the trilogy of best-selling books, beginning with Bogle on Investing: The First 50 Years (2001) and Don't Count on It! (2011)

Clash of Cultures, Second Edition, is a captivating exploration of the Age of Discovery, when Western civilization first came into contact - and conflict - with all the other peoples of the world.

Internationally known archeologist Brian Fagan draws on original sources and scholarly writing from dozens of academic disciplines to chart the tragic effects of first contact, illuminating the resulting racism, ethnocentrism, and ever-growing chasm between industrial nations and traditional societies. This seminal book includes case studies covering a wide variety of societies, including the Khoikhoi of South Africa, the Aztecs of Mexico, and the Tahitians. Special attention is paid to the Hurons of Canada, the natives of the American Northwest, and

the Tasmanians and Maori of New Zealand. The second edition includes a new introduction, chapters on early Japan and the effects of epidemic disease, and a revised guide to further reading. Clash of Cultures is an ideal text for students studying the background of the modern world.

A fascinating portrait of cultural conflict in action visits a small Iowa community where Lubavitcher Jews opened a successful slaughterhouse and found themselves in conflict with Gentile neighbors. Reprint. 30,000 first printing.

"If you fear that cultural, political, and class differences are tearing America apart, read this important book." —Jonathan Haidt, Ph.D., author of *The Righteous Mind Who will rule in the twenty-first century: allegedly more disciplined Asians, or allegedly more creative Westerners? Can women rocket up the corporate ladder without knocking off the men? How can poor kids get ahead when schools favor the rich? As our planet gets smaller, cultural conflicts are becoming fiercer. Rather than lamenting our multicultural worlds, Hazel Rose Markus and Alana Conner reveal how we can leverage our differences to mend the rifts in our workplaces, schools, and relationships, as well as on the global stage. Provocative, witty, and painstakingly researched, Clash! not only explains who we are, it also envisions who we could become.*

The conversion of the lands on the southern and eastern shores of the Baltic Sea by Germans, Danes and Swedes in the period from 1150 to 1400 represented the last great struggle between Christianity and paganism on the European continent, but for the indigenous peoples of Finland, Livonia, Prussia, Lithuania and Pomerania, it was also a period of wider cultural conflict and transformation. Along with the Christian faith came a new and foreign culture: the German and Scandinavian languages of the crusaders and the Latin of their priests, new names for places, superior military technology, and churches and fortifications built of stone. For newly baptized populations, the acceptance of Christianity encompassed major changes in the organization and practice of political, religious and social life, entailing the acceptance of government by alien elites, of new cultic practices, and of new obligations such as taxes, tithes and military service in the armies of the Christian rulers. At the same time, as the Western conquerors carried their campaigns beyond pagan territory into the principalities of north-western Russia, the Baltic Crusades also developed into a struggle between Roman Catholicism and Orthodoxy. This collection of sixteen essays by both established and younger scholars explores the theme of clash of cultures from a variety of perspectives, discussing the

nature and ideology of crusading in the medieval Baltic region, the struggle between Catholicism and Orthodoxy, and the cultural confrontation that accompanied the process of conversion, in subjects as diverse as religious observation, political structures, the practice of warfare, art and music, and perceptions of the landscape.

The globalization of the world economy today means that more and more people are experiencing working in another culture. Focusing on the real experiences of workers in Japanese transnational finance companies, this book not only throws light on this specific case, but at the same time raises timely questions and insights concerning the newly emerging multicultural work experiences world-wide. *The Clash of Economic Cultures: Japanese Bankers in the City of London* reflects on contemporary discussions in sociology, anthropology and cultural studies of individual global movement and cultural interaction. While there are some studies on Japanese multinational companies in Europe, they have typically assumed stereotyped differences in management systems and work

cultures. This book, however, breaks the mold by looking at the culture and individuals' subjective views about their working lives and also their own worldviews; this perspective illuminates the difficulties in working relationships between Japanese and Europeans. Junko Sakai reveals, through 100 transcribed interviews, the influence of power relationships on people of different groups in terms of gender, class, and ethnicity. The Clash of Economic Cultures shows uneven transformation of economic and cultural hegemony between East and West. This book gives voice to Japanese men and women whose voices are rarely heard, and to the British who have worked for non-Westerners in the West. It is also a significant and timely analysis of the increasing influence of non-Western companies in London. It will be of great interest to cultural anthropologists, business historians, sociologists and scholars in Japanese and Asian studies, as well as those involved in international finance and management.
