The Dispossessed is set on Anarres and Urras, the twin inhabited worlds of Tau Ceti. Urras is divided into several states, but is dominated by its two rival superpowers, A-Io and Thu. The main character spends most of his time in A-Io while on Urras, a state with a capitalist economy and a patriarchal system.

First of all: if you haven't already read The Dispossessed, then do so. Somehow, probably because it comes with an SF sticker, it isn't yet officially labeled as one of the great novels of the 20th century. They're going to fix that eventually, so why not get in ahead of the crowd? It's not just a terrific story; it might change your life.

Wise, complex and thrilling, The Dispossessed is the sort of science fiction only Le Guin could have written; her abiding interest in anthropology and human nature summons worlds that inspire total belief from her readers, and she gives no easy answers to the many questions that the book poses.

"One of the greats...Not just a science fiction writer; a literary icon." - Stephen King From the brilliant and award-winning author Ursula K. Le Guin comes a classic tale of two planets torn apart by conflict and mistrust - and the man who risks everything to reunite them. A bleak moon settled by utopian anarchists, Anarres has long been isolated from other worlds, including its mother planet, Urras—a civilization of warring nations, great poverty, and immense wealth. Now Shevek, a brilliant physicist, is determined to reunite the two planets, which have been divided by centuries of distrust.

He will seek answers, question the unquestionable, and attempt to tear down the walls of hatred that have kept them apart. To visit Urras—to learn, to teach, to share—will require great sacrifice and risks, which Shevek willingly accepts. But the ambitious scientist's gift is soon seen as a threat, and in the profound conflict that ensues, he must reexamine his beliefs even as he ignites the fires of change.

The first comprehensive, in-depth book on the Trump administration's assault on asylum protections Arnovis couldn't stay in El Salvador. If he didn't leave, a local gangster promised that his family would dress in mourning—that he would wake up with flies in his mouth. “It was like a bomb exploded in my life,” Arnovis said. The Dispossessed tells the story of a twenty-four-year-old Salvadoran man, Arnovis, whose family's search for safety shows how the United States—in concert with other Western nations—has gutted asylum protections for the world's most vulnerable. Crisscrossing the border and Central America, John Washington traces one man's quest for asylum. Arnovis is separated from his daughter by US Border Patrol agents and struggles to find security after being repeatedly deported to a gang-ruled community in El Salvador, traumatic experiences relayed by Washington with vivid intensity. Adding historical, literary, and current political context to the discussion of migration today, Washington tells the history of asylum law and practice through ages to the present day. Packed with information and reflection, The Dispossessed is more than a human portrait of those who cross borders—it is an urgent and persuasive case for sharing the country we call home.

The Dispossessed has been described by political thinker Andre Gorz as 'The most striking description I know of the seductions—and snares—of self-managed communist or, in other words, anarchist society.' To date, however, the radical social, cultural, and political ramifications of Le Guin's multiple award-winning novel remain woefully under explored. Editors Laurence Davis and Peter Stillman right this state of affairs in the first ever collection of original essays devoted to Le Guin's novel. Among the topics covered in this wide-ranging, international and interdisciplinary collection are the anarchist, ecological, post-consumerist, temporal, revolutionary, and open-ended utopian politics of The Dispossessed. The book concludes with an essay by Le Guin written specially for this volume, in which she reassesses the novel in light of the development of her own thinking over the past 30 years.

A literary sensation on its original publication in Hungary, this hypnotic, hauntingly beautiful first novel from the acclaimed, award-winning poet and author Szilárd Borbély depicts the poverty and cruelty experienced by a partly-Jewish family in a rural village in the late 1960s and early 1970s. “No one has ever written so beautifully and at the same time so without pity about the suffering in the isolated provincial villages of Hungary...His sentences have a surgical precision, and their sustained rhythm only reinforces the power of what they evoke.”—Nicole Henneberg, Frankfurter Allgemeine Zeitung In a tiny village in northeast Hungary, close to the Romanian border, a young, unnamed boy warily observes day-to-day life and chronicles his family's struggles to survive. Like most of the villagers, his family is desperately poor, but their situation is worse than most—they are ostracized because of his father's Jewish heritage and his mother's connections to the Kulaks, who once owned land and supported the fascist Horthy regime before it was toppled by Communists. With unflinching candor, the little boy's observations are related through a variety of narrative voices—crude diatribes from his alcoholic father, evocative and lyrical tales of the past from his grandparents, and his own simple yet potent prose. Together, these accounts reveal not only the history of his family but that of Hungary itself, through the physical and psychic traumas of two World Wars to the country's treatment of Jews, both past and present. Drawing heavily on Borbély's memories of his own childhood, The Dispossessed is an extraordinarily realistic novel. Raw and often brutal, yet glimmering with hope, it is the crowning achievement of an uncompromising talent.

While the world's scientists and many of its inhabitants despair at the impact of climate change, corporate and military leaders see nothing but opportunities. For them, melting ice caps mean newly accessible fossil fuels, borders to be secured from 'climate refugees', social conflicts to be managed and more failed states in which to intervene. They are 'securing' their assets at the expense of the planet and its inhabitants. The Secure and the Dispossessed looks at these deadly approaches with a critical eye. It also considers the flip-side: that the legitimacy of the elite is under unprecedented pressure - from resistance by communities to resource grabs to those creating new ecological and socially just models for managing our energy, food and water. Topics covered include geoengineering, militarism, refugee protection, greenwashing and the agricultural crisis among others. Adaptation and resilience to a climate-changed world is desperately needed, but the form it will take will affect all of our futures.
