perspectives. Reaching beyond the traditional concept of supervision in which principals were responsible for rating teachers' effectiveness, *Instructional Leadership, 4/e* asserts that teachers and principals must work as colleagues to improve teaching and learning in schools. Using a learning-centered approach that emphasizes making decisions that support student learning, the authors address issues critical to the teaching and learning process: student differences, learning, student motivation, teaching, classroom management, assessing student learning, and assessing and changing school climate and culture.

Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well
