Click Linker>General, then copy and paste \$(OPENCV_DIR)\x86\vc11\lib from ^Additional Library Direction _ . Click Linker>Input, then click down arrow on the right of window, then click <Edit...>. After you click <Edit...>, the dialog box will appear and you have to copy and paste following library file names in below.

Tutorial for Open CV with Visual Studio installation

To compile OpenCV with GPU support, we need A C++ compiler (Microsoft Visual C++, MinGW etc), CUDA toolkit and CMake. For today's tutorial we're using Microsoft Visual Studio 2010, CUDA Toolkit 5.0, and CMake 2.8.11 and Windows 7 as platform. Once you download, extract the OpenCV for Windows package in a folder.
