This fun-filled packet will give your students practice with the concept of perimeter, area, and volume. Examples and exercises are provided to help students of various grade levels grasp the concepts and form a solid foundation for advanced learning in mathematics. Each page introduces a new concept and gives students valuable practice in geometry.

This unique resource provides 190 high-interest, ready-to-useactivities to help students master basic math skills—including whole numbers, decimals, fractions, percentages, moneyconcepts, geometry and measurement, charts and graphs, andpre-algebra— for use with students of varying ability levels. All activities are classroom-tested and presented in a varietyof entertaining formats, such as puzzles, crosswords, matching,word/number searches, number substitutions, and more. Plus, manyactivities include "Quick Access Information" flags providinghelpful information on key concepts.

Fill in the gaps of your Common Core curriculum! Each ePacket has reproducible worksheets with questions, problems, or activities that correspond to the packet's Common Core standard. Download and print the worksheets for your students to complete. Then, use the answer key at the end of the document to evaluate their progress. Look at the product code on each worksheet to discover which of our many books it came from and build your teaching library! This ePacket has 7 activities that you can use to reinforce the standard CCSS HSG-GMD.A.1, 2, 3: Circumference & Volume. To view the ePacket, you must have Adobe Reader installed. You can install it by going to <http://get.adobe.com/reader/>.

Explores foundational math concepts that will prepare students for Algebra and more advanced subjects. Material includes decimals, fractions, exponents, integers, percents, inequalities, and some basic geometry. Volume 2 includes the last 6 chapters.

CK-12 Foundation's Single Variable Calculus FlexBook introduces high school students to the topics covered in the Calculus AB course. Topics include: Limits, Derivatives, and Integration.

Kaplan's TASC Prep provides expert strategies, online practice, and video tutorials to help you pass all five subjects. Our book and online resources are designed for self-study so you can prep at your own pace, on your own schedule. Kaplan is so certain that TASC Prep offers the guidance you need that we guarantee it: after studying with our book, you'll pass the TASC—or your money back. The Best Practice More than 1,000 practice questions with detailed explanations One full-length practice test A diagnostic pretest in the book to help identify your strengths and weaknesses so you can focus your study Essential skills you'll need to pass the reading, writing, social studies, science, and math subject areas Effective strategies for all questions, including the essay More than 40 instructional videos available online or through your mobile device Expert Guidance Kaplan's expert teachers make sure our tests are true to the TASC The previous edition of this book was titled TASC Strategies, Practice, and Review 2017-2018. The TASC is a high school equivalency test that is an alternative to the GED test and the HiSET exam. To find out whether your state uses the TASC for high school equivalency tests, contact your state's department of education.

"2 practice tests + proven strategies + online"—Cover.

Kaplan's GED Test Prep 2019 provides expert strategies, online practice, and video tutorials to help you pass all four GED subject tests. Our book is content fully aligned according to GED Testing Service, and Kaplan is the official partner for live online prep for the GED test. For more information, visit kaptest.com/gedlive. While other GED guides are intended for classroom use, our book is designed for self-study so you can prep at your own pace, on your own schedule. We're so confident that GED Test Prep 2019 offers the guidance you need that we guarantee it: After studying with our book, you'll pass the GED—or your money back. Essential Practice More than 1,000 practice questions with detailed explanations Two full-length practice tests: one in the book and one online, both with detailed explanations A diagnostic pretest to help you set up a personalized study plan Essential skills and review for all four GED subjects: Reasoning through Language Arts, Mathematical Reasoning, Science, and Social Studies Effective strategies for all question types, including extended responses on the RLA test and short answers on the Science test Clear instructions on using the Texas Instruments TI-30XS MultiView calculator Expert Guidance Our books and practice questions are written by teachers who know students—every explanation is written to help you learn We invented test prep—Kaplan (www.kaptest.com) has been helping students for 80 years, and our proven strategies have helped legions of students achieve their dreams Want more expert guidance in 60 online videos? Try GED Test Prep Plus 2019.

With realistic practice, proven strategies, and expert guidance, Kaplan's GED Test Prep 2020 gives you everything you need to pass the test. Kaplan is the official partner for live online prep for the GED test and our content is 100% aligned with the GED test objectives. While other GED guides are intended for classroom use, our book is designed for self-study so you can prep at your own pace, on your own schedule. We're so confident that GED Test Prep 2020 offers the guidance you need that we guarantee it: After studying with our book, you'll pass the GED—or you'll get your money back. The Best Practice More than 1,000 practice questions Two full-length practice tests: one in the book and one online with feedback A diagnostic pretest to help you set up a personalized study plan Essential skills and review for all GED subjects: Reasoning through Language Arts, Mathematical Reasoning, Science, and Social Studies Effective strategies for writing the RLA extended response Clear instructions on using the Texas Instruments TI-30XS MultiView calculator Expert Guidance Our books and practice questions are written by teachers who know students—every explanation is written to help you learn We know the test: The Kaplan team has put tens of thousands of hours into studying the GED—we use real data to design the most effective strategies and study plans We invented test prep—Kaplan (www.kaptest.com) has been helping students for 80 years, and our proven strategies have helped legions of students achieve their dreams Want more expert guidance in 60 online videos? Try GED Test Prep Plus 2020.

Ensure personalized student learning with this breakthrough approach to the Flipped Classroom! This groundbreaking guide helps you identify and address diverse student needs within the flipped classroom. You'll find practical, standards-aligned solutions to help you design and implement carefully planned at-home and at-school learning experiences, all while checking for individual student understanding. Differentiate learning for all students with research-based best practices to help you: Integrate Flipped Learning and Differentiated Instruction Use technology as a meaningful learning tool Proactively use formative assessments Support, challenge, and motivate diverse learners Includes real-world examples and a resource-rich appendix.
