The day Lacey Sturm planned to kill herself was the day her grandmother forced her to go to church, a place Lacey thought was filled with hypocrites, fakers, and simpletons. The screaming match she had with her grandmother was the reason she went to church. What she found there was the Reason she is alive today. With raw vulnerability, this hard rock princess tells her own story of physical abuse, drug use, suicide attempts, and more--and her ultimate salvation. She asks the hard questions so many young people are asking--why am I here? Why am I empty? Why should I go on living?--showing readers that beyond the temporary highs and the soul-crushing lows there is a reason they exist and a purpose for their lives. She not only gives readers a peek down the rocky path that led her to become a vocalist in a popular hardcore band, but she shows them that the same God is guiding their steps today.

Scholars have recently begun to study collections of Byzantine historical excerpts as autonomous pieces of literature. This book focuses on a series of minor collections that have received little or no scholarly attention, including the Epitome of the Seventh Century, the Excerpta Anonymi (tenth century), the Excerpta Salmasiana (eighth to eleventh centuries), and the Excerpta Planudea (thirteenth century). Three aspects of these texts are analysed in detail: their method of redaction, their literary structure, and their cultural and political function. Combining codicological, literary, and political analyses, this study contributes to a better understanding of the intertwining of knowledge and power, and suggests that these collections of historical excerpts should be seen as a Byzantine way of rewriting history.

Inside this manual you will find routine maintenance, tune-up procedures, engine repair, cooling and heating, air conditioning, fuel and exhaust, emissions control, ignition, brakes, suspension and steering, electrical systems, and wiring diagrams.

"Siblings Bob and Tom get a dog with spots. This A-level story uses decodable text to raise confidence in early readers. The book uses a combination of sight words and short-vowel words in repetition to build recognition. Original illustrations help guide readers through the text."--

"We can find hope from those who have walked this path before us. As we begin to heal from our losses, we in turn offer this same hope to others. Through our willingness to face our loss openly and honestly, we discover our strength and resilience - not despite it, but because of it"--Publisher.
